

AGRIFORCE GROWING SYSTEMS, LTD.

Common Stock

This prospectus related to the offer and sale from time to time of up to 6,775,581 shares of common stock of AgriFORCE Growing Systems, Ltd. by the selling stockholders identified in this prospectus. The number of shares offered for sale by the selling stockholders consists of up to 6,775,581 shares of our common stock. We are not selling any shares of our common stock in this offering and we will not receive any of the proceeds from the sale of shares of our common stock by the selling stockholders. The selling stockholders will receive all of the proceeds from any sales of the shares of our common stock offered hereby. However, we will incur expenses in connection with the registration of the shares of our common stock offered hereby. The selling stockholders may sell these shares through public or private transactions at market prices prevailing at the time of sale or at negotiated prices. The timing and amount of any sale are within the sole discretion of the selling stockholders. The selling stockholders and any underwriters, dealers or agents that participate in distribution of the securities may be deemed to be underwriters, and any profit on sale of the securities by them and any discounts, commissions or concessions received by any underwriter, dealer or agent may be deemed to be underwriting discounts and commissions under the Securities Act. There can be no assurances that the selling stockholders will sell any or all of the securities offered under this prospectus. For further information regarding the possible methods by which the shares may be distributed, see the section titled “Plan of Distribution” beginning on page 35 of this prospectus.

Our common stock is listed on the Nasdaq Capital Market under the symbol “AGRI” and our Series A Warrants are listed on the Nasdaq Capital Market under the symbol “AGRI”. On March 28, 2023, the last reported sale price of our common stock on the Nasdaq Capital Market was \$0.63 per share.

You should read this prospectus, together with additional information described under the heading “Where You Can Find More Information,” carefully before you invest in any of our securities.

Investing in our securities involves a high degree of risk. See “Risk Factors” beginning on page 9 of this prospectus for a discussion of information that should be considered in connection with an investment in our securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is May 31, 2023.

We have not, and the selling stockholders have not, authorized anyone to provide you with any information or to make any representations other than those contained in this prospectus or in any free writing prospectus we have prepared and filed with the SEC. We and the selling stockholders take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. This prospectus is an offer to sell only the shares offered hereby, but only under the circumstances and in jurisdictions where it is lawful to do so. The information contained in this prospectus is current only as of its date, regardless of the time of delivery of this prospectus or of any sale of our common stock. For investors outside of the United States: Neither we nor the selling stockholders have done anything that would permit this offering or possession or distribution of this prospectus in any jurisdiction where action for that purpose is required, other than in the United States. Persons outside of the United States who come into possession of this prospectus must inform themselves about, and observe any restrictions relating to, the offering of the shares of our common stock and the distribution of this prospectus outside of the United States.

No person is authorized in connection with this prospectus to give any information or to make any representations about us, the securities offered hereby or any matter discussed in this prospectus, other than the information and representations contained in this prospectus or in any free writing prospectus we may authorize to be delivered or made available to you. If any other information or representation is given or made, such information or representation may not be relied upon as having been authorized by us.

For investors outside the United States: Neither we nor the underwriters have done anything that would permit this offering or possession or distribution of this prospectus in any jurisdiction where action for that purpose is required, other than in the United States. You are required to inform yourselves about and to observe any restrictions relating to this offering and the distribution of this prospectus.

Unless otherwise indicated, information contained in this prospectus concerning our industry and the markets in which we operate, including our general expectations and market position, market opportunity and market share, is based on information from our own management estimates and research, as well as from industry and general publications and research, surveys and studies conducted by third parties. Management estimates are derived from publicly available information, our knowledge of our industry and assumptions based on such information and knowledge, which we believe to be reasonable. Our management’s estimates have not been verified by any independent source, and we have not independently verified any third-party information. In addition, assumptions and estimates of our and our industry’s future performance are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in “Risk Factors.” These and other factors could cause our future performance to differ materially from our assumptions and estimates. See “Cautionary Note Regarding Forward-Looking Statements.”

SUMMARY

This summary highlights selected information from this prospectus and does not contain all of the information that you should consider in making your investment decision. You should carefully read the entire prospectus, the applicable prospectus supplement and any related free writing prospectus, including the risks of investing in our securities discussed under the heading “Risk Factors” contained in the applicable prospectus supplement and any related free writing prospectus, and under similar headings in the documents that are incorporated by reference into this prospectus. You should also carefully read the information incorporated by reference into this prospectus, including our financial statements, and the exhibits to the registration statement of which this prospectus is a component.

The terms “AgriFORCE™,” the “Company,” “we,” “our” or “us” in this prospectus refer to AgriFORCE Growing Systems, Ltd. and its wholly-owned subsidiaries, unless the context suggests otherwise.

PROSPECTUS SUMMARY

This summary highlights selected information from this prospectus and does not contain all of the information that you should consider in making your investment decision. You should carefully read the entire prospectus and any related free writing prospectus, including the risks of investing in our securities discussed under the heading “Risk Factors” contained in the prospectus supplement and any related free writing prospectus.

The terms “AgriFORCE,” the “Company,” “we,” “our” or “us” in this prospectus refer to AgriFORCE Growing Systems, Ltd. and its wholly-owned subsidiaries, unless the context suggests otherwise.

OUR BUSINESS

Overview

AgriFORCE™ was incorporated as a private company by Articles of Incorporation issued pursuant to the provisions of the Business Corporations Act (British Columbia) on December 22, 2017. The Company’s registered and records office address is at 300 – 2233 Columbia Street, Vancouver, BC, Canada, V5Y 0M6.

Our Business

AgriFORCE™ is dedicated to positively transforming farm, food, and family every day, everywhere. We aim to achieve this goal by providing novel agriculturally focused consulting, facility solutions, and products & services through our Solutions division, and by leveraging innovative technologies and processes to deliver healthier more nutritious food to consumers through our Brands division.

The AgriFORCE™ Solutions division is dedicated to transforming modern agricultural development “Building from the Seed to Deliver sustainable, Efficient, and Healthier crops” through our integrated Agtech platform 2.0 combining knowledge and IP with CEA equipment solutions, including our FORCEGH+™ solution, implementing solutions that are best suited to the crops and environment chosen.

Our AgriFORCE™ Brands division is focused on the development and commercialization of plant-based ingredients and products that deliver more nutritious “Food to Table”. We will market and commercialize both branded consumer product offerings and ingredient supplies.

-1-

AgriFORCE™ Solutions

Understanding Our Approach – The AgriFORCE™ Precision Growth Method

Traditional farming includes three fundamental approaches: outdoor, greenhouse and indoor. AgriFORCE™ introduces a unique fourth method, the AgriFORCE™ precision growth method, which is informed by cutting-edge science and leveraging the latest advances in artificial intelligence (AI) and Internet of Things (IoT).

With a carefully optimized approach to facility design, IoT, AI utilization, nutrient delivery, and micro-propagation, we have devised an intricate, scientific and high success-oriented approach designed to produce much greater efficacy yields using fewer resources. This method is intended to outperform traditional growing methods using a specific combination of new and traditional techniques required to attain this efficiency. We call it precision growth. The AgriFORCE™ precision growth method focuses on addressing some of the most important legacy challenges in agriculture: environmental impact, operational efficiency and yield volumes.

The AgriFORCE™ precision growth method presents a tremendous opportunity to positively disrupt all corners of the industry. The market size of just the nutraceutical and plant-based pharmaceutical and vaccine/therapeutics market is over \$500 billion. Including the traditional hydroponics high value crops and controlled-environment food markets, the addressable market approaches nearly \$1 trillion. ⁽¹⁾⁽²⁾⁽³⁾

The AgriFORCE™ Model – Managing the Difficulties of Agricultural Verticals with Modern Technology and Innovation

Our intellectual property combines a uniquely engineered facility design and automated growing system to provide a clear solution to the biggest problems plaguing most high value crop agricultural verticals. It delivers a clean, self-contained environment that maximizes natural sunlight and offers near ideal supplemental lighting. It also limits human intervention and – crucially – it was designed to provide superior quality control. It was also created to drastically reduce environmental impact, substantially decrease utility demands, as well as lower production costs, while delivering customers daily harvests and higher crop yields.

Plants grow most robustly and flavorfully in full natural sunlight. While it may seem counterintuitive to some, even the clearest of glass greenhouses inhibit the full light spectrum of the sun. However, new translucent and transparent membrane materials have emerged recently that enable the near-full-transmission of the sun’s light spectrum.

Our Position in the Ag-Tech Sector

The Ag-Tech sector is severely underserved by the capital markets, and we see an opportunity to acquire global companies who have provided solutions to the industry and are leading innovation moving forward. We are creating a separate corporate office to aggressively pursue such acquisitions. The robustness of our engagement with potential targets has confirmed our belief and desire to be part of a larger integrated Ag-Tech solutions provider, where each separate element of the business has its existing legacy business *and* can leverage across areas of expertise to expand their business footprint. We believe that there is currently no one that we are aware of who is pursuing this model in the US capital markets environment at this time.

The AgriFORCE™ Grow House

The Company is an agriculture-focused technology company that delivers innovative and reliable, financially robust solutions for high value crops through our proprietary facility design and automation IP to businesses and enterprises globally. The Company intends to operate in the plant based pharmaceutical, nutraceutical, and high value crop markets using its unique patented facility design and hydroponics based automated growing system that enable cultivators to effectively grow crops in a controlled environment (“FORCEGH+™”). The Company has designed FORCEGH+™ facilities to produce in virtually any environmental condition and to optimize crop yields to as near their full genetic potential possible while substantially eliminating the need for the use of pesticides, fungicides and/or irradiation.

The Company continues to develop its solution for fruits and vegetables focusing on the integration of its current structure with a new form of vertical grow technology.

BUSINESS PLAN

PHASE 1 (COMPLETED):

- Conceptualization, engineering, and design of facility and systems. (*complete*)
- Completed selection process of key environmental systems with preferred vendors. (*complete*)
- Selection and Land Purchase agreement in Coachella, CA subject to financing. (*complete*)
- ForceFilm material ordered. (*complete*)

PHASE 2:

- Complete the timing of financing for, and purchase of, the selected parcel in Coachella, CA, subject to market conditions,
- Complete feasibility study for new contracts’ structures for facilities with new independent operators.
- Identify procurement of AgriFORCE™ IP specific automated grow system, supplemental grow lighting and controls systems, and manufacture of the building envelope materials.
- Conceptualization and design of vertical grow solutions.
- Initiate the design of an R&D facility for food solutions and plant-based pharma.

PHASE 3:

- Complete the delivery and installation of facilities. Proof of quantitative and qualitative benefits will drive both sales pipeline acceleration for subsequent years.
- Complete the design of an R&D facility for food solutions and plant-based pharma. Commence engagement with universities and pharmaceutical companies.
- Review potential licensing opportunities for the Solutions patent portfolio.

PHASE 4:

- Focus on delivery and installation of additional facilities.
- Expand geographic presence into other geographies by introducing the FORCEGH+™ to other international markets with a view to securing additional locations and markets.

AgriFORCE™ Brands

The Company purchased Intellectual Property (“IP”) from Manna Nutritional Group, LLC (“Manna”), a privately held firm based in Boise, Idaho on September 10, 2021. The IP encompasses a granted patent to naturally process and convert grain, pulses and root vegetables, resulting in low-starch, low-sugar, high-protein, fiber-rich baking flour as well as produces a natural sweetener juice. The core process is covered under the Patent Nr. 11,540,538 in the U.S. and key international markets. The all-natural process is designed to unlock nutritional properties, flavors and other qualities in a range of modern, ancient and heritage grains, pulses and root vegetables to create specialized all-natural baking and all-purpose flours, sweeteners, juices, naturally sweet cereals and other valuation products, providing numerous opportunities for dietary nutritional, performance and culinary applications.

Wheat and Flour Market

Modern diet is believed to be a contributor to health risks such as heart disease, cancer, diabetes and obesity, due in part to the consumption of highly processed foods that are low in natural fiber, protein and nutrition; and extremely high in simple starch, sugar and calories. These “empty carbs” produce glycemic swings that may cause overeating by triggering cravings for food high in sugar, salt and starch. As an example, conventional baking flour is low in natural fiber (~ 2-3%), low-to-average in protein (~ 9%), and very high in starch (~ 75%)⁽⁴⁾. Whole wheat flour is only marginally better.

(4) Based on protein, fiber, and starch content figures from a nationally certified independent laboratory, as compared to standard all-purpose flour.

In contrast, foods high in fiber help to satiate hunger, suppress cravings and raise metabolism⁽⁵⁾. They also assist in weight loss, lower cholesterol, and may reduce the risk of cancer, heart disease and diabetes.

Advantages of the UN(THINK)™ Foods IP

The Controlled Enzymatic Reaction & Endothermic Saccharification with Managed Natural Germination (“CERES-MNG³”) patented process allows for the development and manufacturing of all-natural flours that are significantly higher in fibers, nutrients and proteins and significantly lower in carbohydrates and calories than standard baking flour.

CERES-MNG baking flour produced from soft white wheat has 40 times more fiber, three (3) times more protein and 75% less net carbohydrates than regular all-purpose flour⁸ (6).

Source: Independent analysis by Eurofins Food Chemistry Testing Madison, Inc, February 2022

The CERES-MNG patent will help develop new flours and products from modern, ancient and heritage grains, seeds, legumes and tubers/root vegetables.

(6) Based on protein, fiber, and starch content figures from a nationally certified independent laboratory, as compared to standard all-purpose flour.

-4-

Products that AgriFORCE™ intends to develop for commercialization from the CERES-MNG patented process under the UN(THINK)™ foods brand:

- High protein, high fiber, low carb modern, heritage and ancient grain flours (for use in breads, baked goods, doughs, pastry, snacks, and pasta)
- Protein flours and protein additives
- High protein, high fiber, low carb cereals and snacks
- High protein, high fiber, low carb oat based dairy alternatives
- Better tasting, cleaner label high protein, high fiber, low carb nutrition bars
- High protein, high fiber low carb nutrition juices
- Sweeteners – liquid, granulated
- High protein, high fiber, low carb pet foods and snacks

We intend to commercialize these products behind three (3) main sales channels:

- Ingredients
- Branded ingredients
- Consumer brand

The business opportunity for AgriFORCE™ to successfully commercialize premium specialized products from the UN(THINK)™ foods IP – by capturing a conservatively very small percentage share of the category it is targeting to enter in the premium segments. We estimate these revenues to be between \$500 million and \$1 billion by 2030 (excluding any potential revenues from the Maltose-Power Juice applications).

	Breads & Bakery	Functional Flours	Pulse Flours	Dairy Alternatives	Nutrition Bars	Total
Global market size of target categories	\$ 222B	\$ 48B	\$ 17B	\$ 6B	\$ 45B	
Potential market share	0.1%	1%	1%	1%	0.1%	
AgriFORCE™ potential net revenues	\$ 100-200M	\$ 200-480M	\$ 100- 170M	\$ 30-60M	\$ 20-40M	\$ 450-950M

Sources: Grand View Research Reports, San Francisco CA, 2018 Estimates.

While we are working on setting up a pilot plant in Canada to produce the UN(THINK)™ power wheat flour for the end of 2023, our patented process allows us to develop a gold-standard sprouted wheat flour, which we have qualified and have made available for sale through brokers as of January 2023 in Canada and the USA, under the UN(THINK)™ Awakened Grains™ brand. This new Awakened Grains™ flour will provide enhanced nutrition with over five times more fiber, up to two times more protein and 77% of net carbs versus conventional all purpose flour (source: Eurofins Food Chemistry Madison, Inc, December 2022).

BUSINESS PLAN

AgriFORCE™'s organic growth plan is to actively establish and deploy the commercialization of products, following the acquisition of the Manna IP, is focused on four distinct phases:

PHASE 1 (COMPLETED):

- Product and process testing and validation. *(completed)*
- Filing of US and international patent. *(completed)*
- Conceptual engineering and preliminary budgeting on commercial pilot plant. *(completed)*
- Creation of the UN(THINK)™ foods brand. *(completed)*
- Qualification and operational and commercial set up of the Awakened Grains™ line of products *(completed)*

-5-

PHASE 2:

- Launch of the UN(THINK)™ Awakened Grains™ sprouted flour range of products in business to business (“B2B”) and direct to consumers (“D2C”) channels.
- Design, build, start-up, and operation of the pilot plant for the fully processed and patented flours
- Develop range of finished products behind the wheat grain flours, qualify patented process for pulse/legume, and rice based protein flours.
- Collaborate with Nutritional Flour Medical Research Institute (an IRS section 501(c)(3) Medical Research Organization) funded by private & public research grants.

PHASE 3:

- Launch first range of fully patent processed products in US/Canada (UN(THINK)TM power wheat flour.
- Drive business with finished products in D2C, retail, food service.
- Drive business as ingredients for bakery, snack and plant based protein products manufacturers.
- Develop manufacturing base through partnerships and licensing.
- Conceptual engineering and preliminary budgeting on large-scale processing plant.

PHASE 4:

- Expand product range in US/Canada.
- Expand business to other geographies internationally.
- Design, build, start-up, and operation of large-scale processing plant.

Merger and Acquisition (“M&A”)

With respect to M&A growth, the Company is aggressively pursuing acquisitions in the agriculture technology space. The Company believes that a buy and build strategy will provide unique opportunities for innovation across each segment of the Ag-Tech market we serve. Our unique IP combined with the know-how and IP of acquired companies will create additional value if the way we grow or produce crops. The Company believes there is currently no other public traded publicly in the United States pursuing this model.

Manna Nutritional Group Asset Acquisition

On September 10, 2021, the Company signed a definitive asset purchase agreement to acquire food production and processing IP from Manna.

On May 10, 2022, the Company completed an amendment to its asset purchase agreement with Manna Nutritional Group LLC, dated September 10, 2021. The amendment required the issuance of prefunded warrants instead of shares over several tranches and contained covenants to obtain shareholder approval of the acquisition transactions before the prefunded warrants can be exercised into Company common shares.

The transaction was fully approved by the shareholders on December 15, 2022. The Company paid consideration of \$1,475,000 in cash and issued 7,379,969 prefunded warrants valued at \$12,106,677 adjusted for foreign exchange differences of \$492,300. Subject to a 9.99% stopped and SEC Rule 144 restrictions, the prefunded warrants will vest in tranches up until March 10, 2024. When vested the tranches of prefunded warrants will be converted into an equal number of common shares.

-6-

Delphy Groep BV Acquisition

On February 10, 2022, the Company signed a definitive share purchase agreement (the “**Delphy Agreement**”) to acquire Delphy, a Netherlands-based AgTech consultancy firm, for €23.5 million through a combination of cash and stock. The definitive agreement follows the binding letter of intent as previously announced in the Company’s press release in October 2021. Delphy, which optimizes production of plant-based foods and flowers, has multinational operations in Europe, Asia, and Africa, with approximately 200 employees and consultants. Delphy’s client list includes agriculture companies, governments, universities, and leading AgTech suppliers, who turn to the company to drive agricultural innovation, solutions, and operational expertise. The Delphy Agreement was negotiated at arm’s length and is not a related party transaction.

On September 22, 2022, the Company entered an amendment to the Delphy Agreement, pursuant to which the parties agreed to reduce the total purchase from €\$23.5 million to €17.7 million, plus a potential earnout of up to €6.0 million over two (2) years, based on achieving future performance milestones. The Company also agreed to pay interest in the amount of €0.2 million on the purchase price and additional interest from November 15, 2022 up to January 15, 2023 (the “Long Stop Date”).

Management is currently in negotiating an amendment which will extend the Long Stop Date past January 15, 2023. Neither party has provided notice to terminate the agreement.

Deroose Plants NV Binding Letter of Intent

On February 23, 2022, the Company signed a binding letter of intent (the “Deroose LOI”) with Deroose Plants NV (“Deroose”), one of the largest tissue culture propagation companies in the world with a leadership position in horticulture, plantation crops, and fruit and vegetables. Founded in 1980, Deroose has multi-national operations in Europe, North America, and Asia, and over 800 employees.

The Deroose LOI is subject to completion of standard due diligence and entry into a definitive purchase agreement, which shall include commercially standard terms and conditions, including, but not limited to, representations and warranties, covenants, events of default and conditions to closing.

The net purchase price by the Company is expected to be approximately €61 million. The purchase price represents approximately €41 million for the Deroose business on a cash and debt free basis and €20 million for the genetic IP portfolio.

The parties are working through the Letter of Intent. Neither party has provided notice to terminate the agreement.

Stronghold Land Acquisition

On August 30, 2022, the Company entered into a Purchase and Sale Agreement (“PSA”) with Stronghold Power Systems, Inc. (“Stronghold”) to purchase approximately 34 acres of land in Coachella California. The purchase price is \$4,300,000, payable as follows: (i) \$1,500,000 in cash and (ii) \$2,800,000 in restricted shares of common stock of the Company. The stock is being issued in the form of prefunded warrants in two tranches: (i) \$1,700,000 (695,866 prefunded warrants) issued within five days of entry into the PSA, and (ii) \$1,100,000 (450,266 prefunded warrants) at closing of the transaction. The first tranche shall be void if closing of the transaction does not occur by March 31, 2023. The prefunded warrants per share exercise price is \$2.443 which is subject to certain adjustments. Issuance of all securities in this transaction are exempt from registration under Section 4(a)(2) of the Securities Act of 1933, as amended. Under the terms of the agreement, Stronghold must complete certain permitting, zoning, and infrastructure work by March 31, 2023, to close the transaction.

The Company is currently reviewing the progress made by Stronghold and the market conditions to evaluate the feasibility of acquiring the property.

Recent Developments

Convertible Debt Financing

On January 17, 2023, the Convertible Debt Investors purchased an additional tranche of \$5,076,923 in convertible debentures and received 2,661,289 warrants. The convertible debt and warrants were issued with an exercise price of \$1.24. The issuance of the additional tranche triggered the down round provision, adjusting the exercise prices of the

Debentures and the Debenture Warrants to \$1.24.

Berry People LLC Binding Letter of Intent

On January 24, the Company announced it has entered into a binding letter of intent (“BP LOI”) to acquire Berry People LLC, (“Berry People”), a berry business with an increasingly international footprint and a scalable business model. The acquisition bolsters the AgriFORCE™ Brands division and allows the Company to realize commercial synergies with UN(THINK)™.

-7-

Berry People was founded in 2017 by berry industry veterans to create a new platform to meet market demand for a branded, year-round supply of organic and conventional berries. Berry People quickly established a recognized global trade brand and scalable operations, comprised of over 200 retail and foodservice clients and over 100 grower and exporter clients across the US, Canada, Mexico, and Peru. Berry People had net revenues of USD \$37 (unaudited) million for the year ended December 31, 2022.

The LOI states, among other things that:

- the transaction will be subject to completion of due diligence to the Company’s satisfaction and, after satisfactory due diligence, the reaching of agreement on the terms of the purchase pursuant to a definitive purchase agreement, including conditions precedent for closing of the transaction;
- the parties will sign the definitive purchase agreement no later than April 30, 2023, unless agreed to by both parties; and
- Berry People will not enter into any negotiations with other parties for a period of three months following the execution of the BP LOI.

The BP LOI sets forth a purchase price of \$28.0 million, consisting of \$18.2 million in cash and \$9.8 million in AgriFORCE™ restricted shares, will be paid at closing to acquire 70% of Berry People’s equity interests. Berry People will have the opportunity for future earnouts during the five years after closing based on future revenue and EBITDA targets associated with agreed upon growth targets.

In collaboration with AgriFORCE™, Berry People aims to further develop backward integration into agricultural production via farming joint ventures and deploy licensed and developed IP as part of a scalable franchising model. The berries market was \$9.65 billion in 2021 in the U.S. alone⁷, with growth rates of around 10% or more each year since 2019— a trend that is expected to continue.

(7) As per IRI Integrated Fresh, Latest 52 WE 3/20/2022

Manna Patent Issuance

On January 3, 2023, Manna satisfied all its contractual obligations when the patent was approved by the US Patents Office and title was transferred to the Company. The Company issued 1,637,049 shares upon exercise of vested tranches of Manna’s prefunded warrants in relation to this transaction on January 3, 2023.

Employees

As of March 29, 2023, we had approximately 15 employees and three consultants. We believe our employee relations to be good.

Corporate Information

AgriFORCE™ Growing Systems Ltd. was incorporated as a private company by Articles of Incorporation issued pursuant to the provisions of the Business Corporations Act (British Columbia) on December 22, 2017. The Company currently leases office space at 2233 Colombia Street, Suite 300, Vancouver, B.C., V5Y 0M6 as its principal office. The Company believes the office is in good condition and satisfy its current operational requirements. On February 13, 2018, the Company changed its name from 1146470 B.C. Ltd to Canivate Growing Systems Ltd. On November 22, 2019 the Company changed its name from Canivate Growing Systems Ltd. to AgriFORCE™ Growing Systems Ltd.

Use of proceeds	We are not selling any shares of our common stock in this offering and we will not receive any of the proceeds from the sale of shares of our common stock by the selling stockholders. The selling stockholders will receive all of the proceeds from any sales of the shares of our common stock offered hereby.
Dividend policy	We have never declared or paid any cash dividends on our capital stock. We currently intend to retain all available funds and future earnings, if any, to fund the development and expansion of our business, and we do not anticipate declaring or paying any cash dividends in the foreseeable future. See “Dividend Policy.”
Risk factors	You should read the “Risk Factors” section beginning on page 9 and the other information included in this prospectus for a discussion of factors to consider before deciding to invest in shares of our Class A common stock
Market Symbol and trading	Our common stock is listed on the Nasdaq Capital Market under the symbol “AGRI” and our Series A Warrants under the symbol “AGRIW”.

-8-

RISK FACTORS

Investing in our securities involves a high degree of risk. Before making an investment decision, you should consider carefully the risks, uncertainties and all risk factors set forth in the applicable prospectus supplement and the documents incorporated by reference in this prospectus, including the risk factors discussed under the heading “Risk Factors” in our most recent Annual Report on Form 10-K for the year ended December 31, 2022 and each subsequent filed quarterly report on Form 10-Q and current reports on Form 8-K, which may be amended, supplemented or superseded from time to time by the other reports we file with the SEC in the future.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements. Such statements include statements regarding our expectations, hopes, beliefs or intentions regarding the future, including but not limited to statements regarding our market, strategy, competition, development plans (including acquisitions and expansion), financing, revenues, operations, and compliance with applicable laws. Forward-looking statements involve certain risks and uncertainties, and actual results may differ materially from those discussed in any such statement. Factors that could cause actual results to differ materially from such forward-looking statements include the risks described in greater detail in the following paragraphs. All forward-looking statements in this document are made as of the date hereof, based on information available to us as of the date hereof, and we assume no obligation to update any forward-looking statement. Market data used throughout this prospectus is based on published third party reports or the good faith estimates of management, which estimates are based upon their review of internal surveys, independent industry publications and other publicly available information.

You should review carefully the section entitled “Risk Factors” within this prospectus for a discussion of these and other risks that relate to our business and investing

in shares of our Common Stock.

All forward-looking statements speak only as of the date of this prospectus. We disclaim any obligation to update or revise these statements unless required by law, and you should not place undue reliance on these forward-looking statements. Although we believe that our plans, intentions and expectations reflected in or suggested by the forward-looking statements we make in this prospectus are reasonable, we can give no assurance that these plans, intentions or expectations will be achieved. We disclose important factors that could cause our actual results to differ materially from our expectations under "Risk Factors" and elsewhere in this prospectus. These cautionary statements qualify all forward-looking statements attributable to us or persons acting on our behalf.

Risks Relating to the Company's Business

The Company is an early stage company with little operating history, a history of losses and the Company cannot assure profitability.

The Company currently has no revenues and does not have any history of revenue generating operations. The Company has been involved in the design and development of its CEA FORCEGH+™ facility which incorporates the Company's AgriFORCE™ micropropagation laboratories, acquisition and advancement of the UN(THINK)™ foods IP, product base, development of its pilot plant, and transacting with potential revenue generating acquirees. While the Company has invested considerably in these business plans, no FORCEGH+™ facility has been constructed to date, the Company has not generated revenue from UN(THINK)™, nor has the Company completed any acquisition of revenue generating companies. The commercial or operating viability of the Company's business plans have not been proven. There is no assurance that the revenue generated from its operations, and if those revenues, when and if generated, will be sufficient to sustain operations, nonetheless achieve profitability.

There is no assurance that the Company's FORCEGH+™ facilities or micropropagation laboratories will operate as intended.

The Company's initial state of its business operations will be to construct and deploy its initial FORCEGH+™ facility and micropropagation laboratories. However, the Company has yet to complete construction of any laboratories. Accordingly, this component of the Company's business plan is subject to considerable risks, including:

- there is no assurance that the laboratories will achieve the intended plantlet production rates;
- the costs of constructing and operating the laboratories may be greater than anticipated;
- the potential offtake partners who have indicated a willingness to deploy the laboratories at their existing cultivation operations may withdraw and determine not to deploy the laboratories;
- there is no assurance that the facilities will deliver the intended benefits of high production yields, lower crop losses and reduced operation costs;
- if the company is not able to fully develop the grow house or it does not operate as intended, it could prevent the company from realizing any of its business goals or achieving profitability;
- the costs of constructing the grow houses may be greater than anticipated and the Company may not be able to recover these greater costs through increases in the lease rates, license fees and services fees that it charges to its customers; and
- the costs of operating the grow house may be greater than anticipated.

There is no assurance that UN(THINK)™ will operate as intended.

The Company's plans for developing and advancing the UN(THINK)™ are in its preliminary stages. The Company has yet to fully launch their range of products in either the B2B or D2C channels. Accordingly, this component of the Company's business plan is subject to considerable risks, including:

- the costs of constructing and operating the pilot plant may be greater than anticipated;
- the potential B2B and D2C sales may not achieved the planned levels of sales;
- there is no assurance that the pilot plant will deliver the planned production levels or scale;
- if the company is not able to fully develop the pilot plant, it could prevent the company from realizing any of its business goals or achieving profitability;
- the costs of operating the AgriFORCE™ pilot plant may be greater than anticipated.
- the quality of product from the co-manufacturing may not be sufficient.
- the cost from co-manufacturing may be greater than anticipated.
- the demand for the products may not be as high as predicted.
- the pricing of the products may deter potential buyers and may not cover the cost of production.
- the brand may not attract sufficient volume.

We may not realize the anticipated benefits of, and synergies from, acquisitions and may become responsible for certain liabilities and integration costs as a result.

The businesses we have proposed to acquire have previously operated independently from us. The proposed integrations of our operations with the proposed businesses acquisitions are intended to result in financial and operational benefits, and business synergies. There can be no assurance, however, regarding when or the extent to which we will be able to realize these and other benefits. Integration may also be difficult, unpredictable, and subject to delay because of possible company culture conflicts, system integrations, regulatory compliance, and other factors. Difficulties associated with the integration of the proposed business acquisitions could have a material adverse effect on our business.

Fluctuations in the exchange rate of foreign currencies could result in losses.

We incur a portion of our operating expenses in Canadian dollars, and in the future, as we expand into other foreign countries, we expect to incur operating expenses in other foreign currencies. We are exposed to foreign exchange rate fluctuations as the financial results of our international operations are translated from the local functional currency into U.S. dollars upon consolidation. A decline in the U.S. dollar relative to foreign functional currencies would increase our non-U.S. revenue and improve our operating results. Conversely, if the U.S. dollar strengthens relative to foreign functional currencies, our revenue and operating results would be adversely affected. We have not previously engaged in foreign currency hedging. If we decide to hedge our foreign currency exchange rate exposure, we may not be able to hedge effectively due to lack of experience, unreasonable costs or illiquid markets.

The Company will require additional financing and there is no assurance that additional financing will be available when required.

The Company will require substantial additional capital in order to execute its business plan. Existing funds will not be sufficient and additional financing will be needed for this purpose and for other purposes. The Company plans to achieve this additional financing through equity and/or debt financing which will likely be dilutive to the position of then current shareholders. However, there is no assurance that this financing will be available at favorable terms, if at all, when required, given the Company's small asset base and current lack of revenue.

The Company had negative cash flow for the year ended December 31, 2022.

The Company had negative cash flows from operating activities for year ended December 31, 2022. To the extent that the Company has negative cash flows from operating activities in future periods, it may need to allocate a portion of its cash reserves to fund such negative cash flow. The Company may also be required to raise additional funds through the issuance of equity or debt securities. There can be no assurance that the Company will be able to generate a positive cash flow from operating activities, that additional capital or other types of financing will be available when needed or that these financings will be on terms favorable to the Company. The Company's actual financial

position and results of operations may differ materially from the expectations of the Company's management.

The Company's actual financial position and results of operations may differ materially from the expectations of the Company's management.

The Company's actual financial position and results of operations may differ materially from management's expectations. The process for estimating the Company's revenue, net income and cash flow requires the use of judgment in determining the appropriate assumptions and estimates. These estimates and assumptions may be revised as additional information becomes available and as additional analyses are performed. In addition, the assumptions used in planning may not prove to be accurate, and other factors may affect the Company's financial condition or results of operations. As a result, the Company's revenue, net income and cash flow may differ materially from the Company's projected revenue, net income and cash flow.

The Company expects to incur significant ongoing costs and obligations related to its investment in infrastructure, growth, regulatory compliance and operations.

The Company expects to incur significant ongoing costs and obligations related to its planned investments. To the extent that these costs may be greater than anticipated or the Company may not be able to generate revenues or raise additional financing to cover these costs, these operating expenses could have a material adverse impact on the Company's results of operations, financial condition and cash flows. In addition, future changes in regulations, more vigorous enforcement thereof or other unanticipated events could increase costs and have a material adverse effect on the business, results of operations and financial condition of the Company. The Company may not be able to recover sufficient revenues to offset its higher operating expenses or to recoup its initial capital investment. The Company may incur significant losses in the future for a number of reasons, including, unforeseen expenses, difficulties, complications and delays, and other unknown events. If the Company is unable to achieve and sustain profitability, the market price of our securities may significantly decrease.

-10-

There is no assurance the Company will be able to repatriate or distribute funds for investment from the United States to Canada or elsewhere.

In the event that any of the Company's investments, or any proceeds thereof, any dividends or distributions there from, or any profits or revenues accruing from such investments in the United States were found to be in violation of money laundering legislation or otherwise, such transactions may be viewed as proceeds of crime under applicable federal laws, rules and regulations or any other applicable legislation. This could restrict or otherwise jeopardize the ability of the Company to declare or pay dividends, effect other distributions or subsequently repatriate such funds back to Canada or elsewhere.

The Company may not be able to effectively manage its growth and operations, which could materially and adversely affect its business.

If the Company implements its business plan as intended, it may in the future experience rapid growth and development in a relatively short period of time. The management of this growth will require, among other things, continued development of the Company's financial and management controls and management information systems, stringent control of costs, the ability to attract and retain qualified management personnel and the training of new personnel. The Company intends to utilize outsourced resources, and hire additional personnel, to manage its expected growth and expansion. Failure to successfully manage its possible growth and development could have a material adverse effect on the Company's business and the value of the shares.

The Company may face significant competition from other facilities.

Many other businesses in California engage in similar activities to the Company, leasing commercial space to agricultural producers generally, and providing additional products and services to similar customers. The Company cannot assure you that it will be able to compete successfully against current and future competitors. Competitive pressures faced by the Company could have a material adverse effect on its business, operating results and financial condition.

The Company may face significant competition from other nutritious food companies.

We face significant competition from other nutritious food companies. Many of our competitors may have established brands, more experience and competency in the industry, larger fulfillment infrastructure, significantly more marketing and other financial resources, and larger customer bases than we do. These factors may allow our competitors to achieve greater net sales and profits. The significant competition faced by the Company could have a material adverse effect on its business, operating results and financial condition.

If we are unable to protect our intellectual property, our business may be adversely affected.

There can be no assurance that trade secrets and other intellectual property will not be challenged, invalidated, misappropriated or circumvented by third parties. Currently, our intellectual property includes provisional patents, patent applications, trademarks, trademark applications and know-how related to business, product and technology development. We plan on taking the necessary steps, including but not limited to the filing of additional patents as appropriate. There is no assurance any additional patents will issue or that when they do issue they will include all of the claims currently included in the applications. Even if they do issue, those new patents and our existing patents must be protected against possible infringement. Nonetheless, we currently rely on contractual obligations of our employees and contractors to maintain the confidentiality of our products. To compete effectively, we need to develop and continue to maintain a proprietary position with respect to our technologies, and business. The risks and uncertainties that we face with respect to intellectual property rights principally include the following:

- Provisional protection may not result in full patents being granted, and any full patent applications that we file may not result in issued patents or may take longer than expected to result in issued patents;
- we may be subject to interference proceedings;
- other companies may claim that patents applied for by, assigned or licensed to, us infringe upon their own intellectual property rights;
- we may be subject to trademark opposition proceedings in the U.S. and in foreign countries;

-11-

- any patents that are issued to us may not provide meaningful protection;
- we may not be able to develop additional proprietary technologies that are patentable;
- other companies may challenge patents licensed or issued to us as invalid, unenforceable or not infringed;
- other companies may independently develop similar or alternative technologies, or duplicate our technologies;
- other companies may design around technologies that we have licensed or developed;

- any patents issued to us may expire and competitors may utilize the technology found in such patents to commercialize their own products; and
- enforcement of patents is complex, uncertain and expensive.

It is also possible that others may obtain issued patents that could prevent us from commercializing certain aspects of our products or require us to obtain licenses requiring the payment of significant fees or royalties in order to enable us to conduct our business. If we license patents, our rights will depend on maintaining our obligations to the licensor under the applicable license agreement, and we may be unable to do so. Furthermore, there can be no assurance that the work-for-hire, intellectual property assignment and confidentiality agreements entered into by our employees and consultants, advisors and collaborators will provide meaningful protection for our trade secrets, know-how or other proprietary information in the event of any unauthorized use or disclosure of such trade secrets, know-how or other proprietary information. The scope and enforceability of patent claims are not systematically predictable with absolute accuracy. The strength of our own patent rights depends, in part, upon the breadth and scope of protection provided by the patent and the validity of our patents, if any.

We operate in an industry with the risk of intellectual property litigation. Claims of infringement against us may hurt our business.

Our success depends, in part, upon non-infringement of intellectual property rights owned by others and being able to resolve claims of intellectual property infringement without major financial expenditures or adverse consequences. Participants that own, or claim to own, intellectual property may aggressively assert their rights. From time to time, we may be subject to legal proceedings and claims relating to the intellectual property rights of others. Future litigation may be necessary to defend us or our clients by determining the scope, enforceability, and validity of third-party proprietary rights or to establish its proprietary rights. Some competitors have substantially greater resources and are able to sustain the costs of complex intellectual property litigation to a greater degree and for longer periods of time. In addition, patent holding companies that focus solely on extracting royalties and settlements by enforcing patent rights may target us. Regardless of whether claims that we are infringing patents or other intellectual property rights have any merit, these claims are time-consuming and costly to evaluate and defend and could:

- adversely affect relationships with future clients;
- cause delays or stoppages in providing products;
- divert management's attention and resources;
- require technology changes to our platform that would cause our Company to incur substantial cost;
- subject us to significant liabilities; and
- require us to cease some or all business activities.

-12-

In addition to liability for monetary damages, which may be tripled and may include attorneys' fees, or, in some circumstances, damages against clients, we may be prohibited from developing, commercializing, or continuing to provide some or all of our products unless we obtain licenses from, and pay royalties to, the holders of the patents or other intellectual property rights, which may not be available on commercially favorable terms, or at all.

We have limited foreign intellectual property rights and may not be able to protect our intellectual property rights throughout the world.

We have limited intellectual property rights outside the United States. Filing, prosecuting and defending patents on devices in all countries throughout the world would be prohibitively expensive, and our intellectual property rights in some countries outside the United States can be less extensive than those in the United States. In addition, the laws of some foreign countries do not protect intellectual property to the same extent as laws in the United States. Consequently, we may not be able to prevent third parties from practicing our inventions in all countries outside the United States, or from selling or importing products made using our inventions in and into the United States or other jurisdictions. Competitors may use our technologies in jurisdictions where we have not obtained patents to develop their own products and further, may export otherwise infringing products to territories where we have patents, but enforcement is not as strong as that in the United States.

Many companies have encountered significant problems in protecting and defending intellectual property in foreign jurisdictions. The legal systems of certain countries, particularly China and certain other developing countries, do not favor the enforcement of patents, trade secrets and other intellectual property, which could make it difficult for us to stop the infringement of our patents or marketing of competing products in violation of our proprietary rights generally. To date, we have not sought to enforce any issued patents in these foreign jurisdictions. Proceedings to enforce our patent rights in foreign jurisdictions could result in substantial costs and divert our efforts and attention from other aspects of our business, could put our patents at risk of being invalidated or interpreted narrowly and our patent applications at risk of not issuing and could provoke third parties to assert claims against us. We may not prevail in any lawsuits that we initiate and the damages or other remedies awarded, if any, may not be commercially meaningful. The requirements for patentability may differ in certain countries, particularly developing countries. Certain countries in Europe and developing countries, including China and India, have compulsory licensing laws under which a patent owner may be compelled to grant licenses to third parties. In those countries, we and our licensors may have limited remedies if patents are infringed or if we or our licensors are compelled to grant a license to a third party, which could materially diminish the value of those patents. This could limit our potential revenue opportunities. Accordingly, our efforts to enforce our intellectual property rights around the world may be inadequate to obtain a significant commercial advantage from the intellectual property that we develop or license.

If we are unable to obtain or defend our patents, our business could be materially adversely affected.

Our patent position is highly uncertain and involves complex legal and factual questions. Accordingly, we cannot predict the breadth of claims that may be allowed or enforced under our patents or in third-party patents. For example, we might not have been the first to make the inventions covered by each of our pending patent applications and provisional patents; we might not have been the first to file patent applications for these inventions; others may independently develop similar or alternative technologies or duplicate any of our technologies; it is possible that none of our pending patent applications will result in issued patents; our issued patents may not provide a basis for commercially viable technologies, or may not provide us with any competitive advantages, or may be challenged and invalidated by third parties; and, we may not develop additional proprietary technologies that are patentable.

As a result, our owned and licensed patents may not be valid and we may not be able to obtain and enforce patents and to maintain trade secret protection for the full commercial extent of our technology. The extent to which we are unable to do so could materially harm our business.

We have applied for and will continue to apply for patents for certain products. Such applications may not result in the issuance of any patents, and any patents now held or that may be issued may not provide us with adequate protection from competition. Furthermore, it is possible that patents issued or licensed to us may be challenged successfully. In that event, if we have a preferred competitive position because of such patents, such preferred position would be lost. If we are unable to secure or to continue to maintain a preferred position, we could become subject to competition from the sale of generic products. Failure to receive, inability to protect, or expiration of our patents would adversely affect our business and operations.

-13-

Patents issued or licensed to us may be infringed by the products or processes of others. The cost of enforcing our patent rights against infringers, if such enforcement is required, could be significant, and we do not currently have the financial resources to fund such litigation. Further, such litigation can go on for years and the time demands could interfere with our normal operations. We may become a party to patent litigation and other proceedings. The cost to us of any patent litigation, even if resolved in our favor, could be substantial. Many of our competitors may be able to sustain the costs of such litigation more effectively than we can because of their substantially greater financial resources. Litigation may also absorb significant management time.

Unpatented trade secrets, improvements, confidential know-how and continuing technological innovation are important to our scientific and commercial success. Although we attempt to and will continue to attempt to protect our proprietary information through reliance on trade secret laws and the use of confidentiality agreements with our partners, collaborators, employees and consultants, as well as through other appropriate means, these measures may not effectively prevent disclosure of our proprietary information, and, in any event, others may develop independently, or obtain access to, the same or similar information.

International intellectual property protection is particularly uncertain, and if we are involved in opposition proceedings in foreign countries, we may have to expend substantial sums and management resources.

Patent and other intellectual property law outside the United States is more uncertain and is continually undergoing review and revisions in many countries. Further, the laws of some foreign countries may not protect intellectual property rights to the same extent as the laws of the United States. For example, certain countries do not grant patent claims that are directed to business methods and processes. In addition, we may have to participate in opposition proceedings to determine the validity of its foreign patents or its competitors' foreign patents, which could result in substantial costs and diversion of its efforts and loss of credibility with customers.

If we are found to be infringing on patents or trade secrets owned by others, we may be forced to cease or alter our product development efforts, obtain a license to continue the development or sale of our products, and/or pay damages.

Our processes and potential products may violate proprietary rights of patents that have been or may be granted to competitors, universities or others, or the trade secrets of those persons and entities. As our industry expands and more patents are issued, the risk increases that our processes and potential products may give rise to claims that they infringe the patents or trade secrets of others. These other persons could bring legal actions against us claiming damages and seeking to enjoin manufacturing and marketing of the affected product or process. If any of these actions are successful, in addition to any potential liability for damages, we could be required to obtain a license in order to continue to manufacture or market the affected product or use the affected process. Required licenses may not be available on acceptable terms, if at all, and the results of litigation are uncertain. If we become involved in litigation or other proceedings, it could consume a substantial portion of our financial resources and the efforts of our personnel.

We rely on confidentiality agreements to protect our trade secrets. If these agreements are breached by our employees or other parties, our trade secrets may become known to our competitors.

We rely on trade secrets that we seek to protect through confidentiality agreements with our employees and other parties. If these agreements are breached, our competitors may obtain and use our trade secrets to gain a competitive advantage over us. We may not have any remedies against our competitors and any remedies that may be available to us may not be adequate to protect our business or compensate us for the damaging disclosure. In addition, we may have to expend resources to protect our interests from possible infringement by others.

-14-

We have a limited operating history on which to judge our business prospects and management.

Our company was incorporated and commenced operations in 2017. Accordingly, we have only a limited operating history upon which to base an evaluation of our business and prospects. Operating results for future periods are subject to numerous uncertainties and we cannot assure you that we will achieve or sustain profitability. Our prospects must be considered in light of the risks encountered by companies in the early stage of development, particularly companies in new and rapidly evolving markets. Future operating results will depend upon many factors, including increasing the number of affiliates, our success in attracting and retaining motivated and qualified personnel, our ability to establish short term credit lines, our ability to develop and market new products, control costs, and general economic conditions. We cannot assure you that we will successfully address any of these risks.

We may not be able to continue as a going concern.

The Company has incurred substantial operating losses since its inception and expects to continue to incur significant operating losses for the foreseeable future and may never become profitable. As reflected in the financial statements, the Company had an accumulated deficit of approximately \$32.8 million at December 31, 2022, a net loss of approximately \$12.9 million, and approximately \$12.1 million of net cash used in operating activities for the year ended December 31, 2022. The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might result from the outcome of this uncertainty. The Company anticipates incurring additional losses until such time, if ever, that it can obtain marketing approval to sell, and then generate significant sales, of its technology that is currently in development. As such it is likely that additional financing will be needed by the Company to fund its operations and to develop and commercialize its technology. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company is seeking additional financing to support its growth plans. The sale of additional equity may dilute existing shareholders and newly issued shares may contain senior rights and preferences compared to currently outstanding common shares.

Our management team will be required to devote substantial time to regulatory compliance which may divert our attention from the day-to-day management of our business.

Our management team will require substantial attention from our senior management and could divert our attention away from the day-to-day management of our business. Regulatory compliance is increasingly complex and management may not have experience in all areas of public company compliance. The management team will seek assistance from external resources when appropriate for public company regulatory compliance and tax regulatory compliance for applicable jurisdictions.

The Company may become subject to litigation, which may have a material adverse effect on the Company's reputation, business, results from operations, and financial condition.

The Company may be named as a defendant in a lawsuit or regulatory action. The Company may also incur uninsured losses for liabilities which arise in the ordinary course of business, or which are unforeseen, including, but not limited to, employment liability and business loss claims. Any such losses could have a material adverse effect on the Company's business, results of operations, sales, cash flow or financial condition.

If the Company is unable to attract and retain key personnel, it may not be able to compete effectively.

The Company's success has depended and continues to depend upon its ability to attract and retain key management, including the Company's Chief Executive Officer and technical experts. The Company will attempt to enhance its management and technical expertise by continuing to recruit qualified individuals who possess desired skills and experience in certain targeted areas. The Company's inability to retain employees and attract and retain sufficient additional employees or engineering and technical support resources could have a material adverse effect on the Company's business, results of operations, sales, cash flow or financial condition. Shortages in qualified personnel or the loss of key personnel could adversely affect the financial condition of the Company, results of operations of the business and could limit the Company's ability to develop and

market its intellectual property. The loss of any of the Company's senior management or key employees could materially adversely affect the Company's ability to execute the Company's business plan and strategy, and the Company may not be able to find adequate replacements on a timely basis, or at all. The Company does not maintain key person life insurance policies on any of the Company's employees.

-15-

The size of the Company's initial target market is difficult to quantify and investors will be reliant on their own estimates on the accuracy of market data.

Because high growth crop technology is in an early stage with uncertain boundaries, there is a lack of information about comparable companies available for potential investors to review in deciding about whether to invest in the Company and, few, if any, established companies whose business model the Company can follow or upon whose success the Company can build. Accordingly, investors will have to rely on their own estimates in deciding about whether to invest in the Company. There can be no assurance that the Company's estimates are accurate or that the market size is sufficiently large for its business to grow as projected, which may negatively impact its financial results. The Company regularly follows market research.

The Company's industry is experiencing rapid growth and consolidation that may cause the Company to lose key relationships and intensify competition.

The agriculture industry and various verticals within it are undergoing rapid growth and substantial change, which has resulted in an increase in competitors, consolidation and formation of strategic relationships. Acquisitions or other consolidating transactions could harm the Company in a number of ways, including by losing strategic partners and or customers if they are acquired by or enter into relationships with a competitor, losing customers, revenue and market share, or forcing the Company to expend greater resources to meet new or additional competitive threats, all of which could harm the Company's operating results. As competitors enter the market and become increasingly sophisticated, competition in the Company's industry may intensify which could negatively impact its profitability.

The Company will be reliant on information technology systems and may be subject to damaging cyberattacks.

The Company's operations depend, in part, on how well it and its suppliers protect networks, equipment, information technology systems and software against damage from a number of threats, including, but not limited to, cable cuts, damage to physical plants, natural disasters, intentional damage and destruction, fire, power loss, hacking, computer viruses, vandalism and theft. The Company's operations also depend on the timely maintenance, upgrade and replacement of networks, equipment, IT systems and software, as well as pre-emptive expenses to mitigate the risks of failures. Any of these and other events could result in information system failures, delays and/or increase in capital expenses. The failure of information systems or a component of information systems could, depending on the nature of any such failure, adversely impact the Company's reputation and results of operations.

The Company has not experienced any material losses to date relating to cyber-attacks or other information security breaches, but there can be no assurance that the Company will not incur such losses in the future. The Company's risk and exposure to these matters cannot be fully mitigated because of, among other things, the evolving nature of these threats. As a result, cyber security and the continued development and enhancement of controls, processes and practices designed to protect systems, computers, software, data and networks from attack, damage or unauthorized access is a risk. As cyber threats continue to evolve, the Company may be required to expend additional resources to continue to modify or enhance protective measures or to investigate and remediate any security vulnerabilities.

-16-

The Company's officers and directors may be engaged in a range of business activities resulting in conflicts of interest.

Although certain officers and board members of the Company are expected to be bound by anti-circumvention agreements limiting their ability to enter into competing and/or conflicting ventures or businesses, the Company may be subject to various potential conflicts of interest because some of its officers and directors may be engaged in a range of business activities. In addition, the Company's executive officers and directors may devote time to their outside business interests, so long as such activities do not materially or adversely interfere with their duties to the Company. In some cases, the Company's executive officers and directors may have fiduciary obligations associated with these business interests that interfere with their ability to devote time to the Company's business and affairs and that could adversely affect the Company's operations. These business interests could require significant time and attention of the Company's executive officers and directors.

In addition, the Company may also become involved in other transactions which conflict with the interests of its directors and the officers who may from time to time deal with persons, firms, institutions or companies with which the Company may be dealing, or which may be seeking investments similar to those desired by it. The interests of these persons could conflict with those of the Company. In addition, from time to time, these persons may be competing with the Company for available investment opportunities. Conflicts of interest, if any, will be subject to the procedures and remedies provided under applicable laws. In particular, if such a conflict of interest arises at a meeting of the Company's directors, a director who has such a conflict will abstain from voting for or against the approval of such participation or such terms. In accordance with applicable laws, the directors of the Company are required to act honestly, in good faith and in the best interests of the Company.

There is no guarantee that how the Company uses its available funds will yield the expected results or returns which could impact the business and financial condition of the Company.

The Company cannot specify with certainty the particular uses of available funds. Management has broad discretion in the application of its proceeds. Accordingly, a holder of shares will have to rely upon the judgment of management with respect to the use of available funds, with only limited information concerning management's specific intentions. The Company's management may spend a portion or all of the available funds in ways that the Company's shareholders might not desire, that might not yield a favorable return and that might not increase the value of a purchaser's investment. The failure by management to apply these funds effectively could harm the Company's business. Pending use of such funds, the Company might invest the available funds in a manner that does not produce income or that loses value.

Our Articles of incorporation, by-laws and certain Canadian legislation, contain provisions that may have the effect of delaying or preventing a change in control.

Certain provisions of our by-laws, together or separately, could discourage potential acquisition proposals, delay or prevent a change in control and limit the price that certain investors may be willing to pay for our common shares. For instance, our by-laws contain provisions that establish certain advance notice procedures for nomination of candidates for election as directors at shareholders' meetings.

The *Investment Canada Act* requires any person that is non-Canadian (as defined in the *Investment Canada Act*) who acquires "control" (as defined in the *Investment Canada Act*) of an existing Canadian business to file either a pre-closing application for review or notification with Innovation, Science and Economic Development Canada. An acquisition of control is a reviewable transaction where prescribed financial thresholds are exceeded. The *Investment Canada Act* generally prohibits the implementation of a reviewable transaction unless, after review, the relevant Minister is satisfied that the acquisition is likely to be of net benefit to Canada. Under the national security regime in the *Investment Canada Act*, the federal government may undertake a discretionary review of a broader range of investments by a non-Canadian to determine whether such an investment by a non-Canadian could be "injurious to national security." Review on national security grounds is at the discretion of the federal government and may occur on a pre- or post-closing basis.

-17-

Furthermore, limitations on the ability to acquire and hold our common shares may be imposed by the *Competition Act* (Canada). This legislation permits the Commissioner of Competition to review any acquisition or establishment, directly or indirectly, including through the acquisition of shares, of control over or of a significant interest in us. This legislation grants the Commissioner of Competition jurisdiction, for up to one year, to challenge this type of acquisition before the Canadian Competition Tribunal on the basis that it would, or would be likely to, substantially prevent or lessen competition. This legislation also requires any person who intends to acquire our common shares to file a notification with the Canadian Competition Bureau if (i) that person (and their affiliates) would hold, in the aggregate, more than 20% of all of our outstanding voting shares, (ii) certain financial thresholds are exceeded, and (iii) no exemption applies. Where a person (and their affiliates) already holds, in the aggregate, more than 20% of all of our outstanding voting shares, a notification must be filed if (i) the acquisition of additional shares would bring that person's (and their affiliates) holdings to over 50%, (ii) certain financial thresholds are exceeded and (iii) no exemption applies. Where a notification is required, the legislation prohibits completion of the acquisition until the expiration of the applicable statutory waiting period, unless compliance with the waiting period has been waived or the Commissioner of Competition provides written notice that he does not intend to challenge the acquisition. The Commissioner of Competition's review of a notifiable transaction for substantive competition law considerations may take longer than the statutory waiting period.

We are governed by the corporate laws of British Columbia, Canada which in some cases have a different effect on shareholders than the corporate laws of the United States.

We are incorporated under the *Business Corporations Act (British Columbia)* (the "BC Act") and other relevant laws, which may affect the rights of shareholders differently than those of a company governed by the laws of a U.S. jurisdiction, and may, together with our charter documents, have the effect of delaying, deferring or discouraging another party from acquiring control of our company by means of a tender offer, a proxy contest or otherwise, or may affect the price an acquiring party would be willing to offer in such an instance. The material differences between the BC Act and Delaware General Corporation Law ("DGCL") that may have the greatest such effect include, but are not limited to, the following: (i) for certain corporate transactions (such as mergers and amalgamations or amendments to our articles) the BC Act generally requires the voting threshold to be a special resolution approved by 66 2/3% of shareholders, or as set out in the articles, as applicable, whereas DGCL generally only requires a majority vote; and (ii) under the BC Act a holder of 5% or more of our common shares can requisition a special meeting of shareholders, whereas such right does not exist under the DGCL. We cannot predict whether investors will find our company and our common shares less attractive because we are governed by foreign laws.

Risks Related to the Ownership of Our Common Shares

New laws, regulations, and standards relating to corporate governance and public disclosure may create uncertainty for public companies, increasing legal and financial compliance costs and making some activities more time consuming.

These laws, regulations and standards are subject to varying interpretations, in many cases due to their lack of specificity, and, as a result, may evolve over time as new guidance is provided by the courts and other bodies. This could result in continuing uncertainty regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and governance practices. If our efforts to comply with new laws, regulations, and standards differ from the activities intended by regulatory or governing bodies due to ambiguities related to their application and practice, regulatory authorities may initiate legal proceedings against us and our business may be adversely affected.

As a public company subject to these rules and regulations, we may find it more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced coverage or incur substantially higher costs to obtain coverage. These factors could also make it more difficult for us to attract and retain qualified members of our Board of Directors, particularly to serve on its audit committee and compensation committee, and qualified executive officers.

The market price of our common shares and Series A Warrants may be volatile, and you may not be able to resell your common shares and Series A Warrants at or above the acquisition price.

The market price for our common shares and Series A Warrants may be volatile and subject to wide fluctuations in response to factors including the following:

- actual or anticipated fluctuations in our quarterly or annual operating results;
- changes in financial or operational estimates or projections;
- conditions in markets generally;
- changes in the economic performance or market valuations of companies similar to ours;
- general economic or political conditions in the United States or elsewhere;
- any delay in development of our products or services;
- failure to comply with regulatory requirements;
- inability to commercially launch products and services and market and generate sales of our products and services,
- developments or disputes concerning intellectual property rights;
- our or our competitors' technological innovations;
- general and industry-specific economic conditions that may affect our expenditures;
- changes in market valuations of similar companies;
- announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures, capital commitments, new technologies, or patents;
- future sales of our common shares or other securities, including shares issuable upon the exercise of outstanding warrants or convertible securities or otherwise issued pursuant to certain contractual rights;
- period-to-period fluctuations in our financial results; and
- low or high trading volume of our common shares due to many factors, including the terms of our financing arrangements.

In addition, if we fail to reach an important research, development or commercialization milestone or result by a publicly expected deadline, even if by only a small margin, there could be significant impact on the market price of our common shares. Additionally, as we approach the announcement of anticipated significant information and as we announce such information, we expect the price of our common shares to be particularly volatile and negative results would have a substantial negative impact on the price of our common shares and Series A Warrants.

In addition, in recent years, the stock market in general has experienced extreme price and volume fluctuations. This volatility has had a significant effect on the market price of securities issued by many companies, including for reasons unrelated to their operating performance. These broad market fluctuations may adversely affect our stock price, notwithstanding our operating results. The market price of our common shares and Series A Warrants will fluctuate and there can be no assurances about the levels of the market prices for our common shares and Series A Warrants.

In some cases, following periods of volatility in the market price of a company's securities, shareholders have often instituted class action securities litigation against those companies. Such litigation, if instituted, could result in substantial costs and diversion of management attention and resources, which could significantly harm our business operations and reputation.

-19-

As an "emerging growth company" under applicable law, we will be subject to lessened disclosure requirements, which could leave our shareholders without information or rights available to shareholders of more mature companies.

For as long as we remain an "emerging growth company" as defined in the JOBS Act, we have elected to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging growth companies" including, but not limited to:

- not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act;
- being permitted to provide only two years of audited financial statements, in addition to any required unaudited interim financial statements, with correspondingly reduced "Management's Discussion and Analysis of Financial Condition and Results of Operations" disclosure;
- reduced disclosure obligations regarding executive compensation in our periodic reports, proxy statements and registration statements;
- taking advantage of an extension of time to comply with new or revised financial accounting standard; and
- exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

We expect to take advantage of these reporting exemptions until we are no longer an "emerging growth company." Because of these lessened regulatory requirements, our shareholders would be left without information or rights available to shareholders of more mature companies. We cannot predict whether investors will find our common shares less attractive if we rely on these exemptions. If some investors find our common shares less attractive as a result, there may be a less active trading market for our common shares and our stock price may be more volatile.

We are also a "smaller reporting company" as defined in Rule 12b-2 of the Exchange Act and have elected to follow certain scaled disclosure requirements available to smaller reporting companies.

Because we have elected to use the extended transition period for complying with new or revised accounting standards for an "emerging growth company" our financial statements may not be comparable to companies that comply with public company effective dates.

We have elected to use the extended transition period for complying with new or revised accounting standards under Section 102(b)(1) of the JOBS Act. This election allows us to delay the adoption of new or revised accounting standards that have different effective dates for public and private companies until those standards apply to private companies. As a result of this election, our financial statements may not be comparable to companies that comply with public company effective dates and may contain less or more modified disclosure than those public companies. Because our financial statements may not be comparable to companies that comply with public company effective dates, investors may have difficulty evaluating or comparing our business, performance or prospects in comparison to other public companies, which may have a negative impact on the value and liquidity of our common shares.

FINRA sales practice requirements may also limit your ability to buy and sell our common shares, which could depress the price of our shares.

Financial Industry Regulatory Authority, Inc. (FINRA) rules require broker-dealers to have reasonable grounds for believing that an investment is suitable for a customer before recommending that investment to the customer. Prior to recommending speculative low-priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status and investment objectives, among other things. Under interpretations of these rules, FINRA believes that there is a high probability such speculative low-priced securities will not be suitable for at least some customers. Thus, FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common shares, which may limit your ability to buy and sell our shares, have an adverse effect on the market for our shares, and thereby depress our share price.

-20-

If research analysts do not publish research about our business or if they issue unfavorable commentary or downgrade our common shares or Series A Warrants, our securities' price and trading volume could decline.

The trading market for our securities may depend in part on the research and reports that research analysts publish about us and our business. If we do not maintain adequate research coverage, or if any of the analysts who cover us downgrade our stock or publish inaccurate or unfavorable research about our business, the price of our common shares and Series A Warrants could decline. If one or more of our research analysts ceases to cover our business or fails to publish reports on us regularly, demand for our securities could decrease, which could cause the price of our common shares and Series A Warrants or trading volume to decline.

We may issue additional equity securities, or engage in other transactions that could dilute our book value or relative rights of our common shares, which may adversely affect the market price of our common shares and Series A Warrants.

Our Board of Directors may determine from time to time that it needs to raise additional capital by issuing additional shares of our common shares or other securities. Except as otherwise described in this filing, we will not be restricted from issuing additional common shares, including securities that are convertible into or exchangeable for, or that represent the right to receive common shares. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing, or nature of any future offerings, or the prices at which such offerings may be affected. Additional equity offerings may dilute the holdings of existing shareholders or reduce the market price of our common shares and Series A Warrants, or all of them. Holders of our securities are not entitled to pre-emptive rights or other protections against dilution. New investors also may have rights, preferences and privileges that are senior to, and that adversely affect, then-current holders of our securities. Additionally, if we raise additional capital by making offerings of debt or preference shares, upon our liquidation, holders of our debt securities and preference shares, and lenders with respect to other borrowings, may receive distributions of its available assets before the holders of our common shares.

An investment in our Series A Warrants is speculative in nature and could result in a loss of your investment therein.

The Series A Warrants do not confer any rights of common share ownership on their holders, such as voting rights or the right to receive dividends, but rather merely represent

the right to acquire shares of our common shares at a fixed price for a limited period of time. Specifically, commencing on the date of issuance, holders of the Series A Warrants may exercise their right to acquire the common shares and pay an exercise price of \$6.00 per share, prior to three years from the date of issuance, after which date any unexercised Series A Warrants will expire and have no further value. Moreover, the market value of the Series A Warrants is uncertain and there can be no assurance that the market value of the Series A Warrants will equal or exceed their initial price. There can be no assurance that the market price of the common shares will ever equal or exceed the exercise price of the Series A Warrants, and consequently, whether it will ever be profitable for holders of the Series A Warrants to exercise the Series A Warrants.

Our Series A Warrants and contain a provision which only permits securities claims to be brought in federal court.

Section 11 of our Series A Warrants states in relevant part: “The Company hereby irrevocably submits to the exclusive jurisdiction of the state and federal courts sitting in The City of New York, Borough of Manhattan (except for claims brought under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, which must be brought in federal court)”. Therefore any claims with respect to our Series A Warrants brought under the Securities Act of 1933 or the Securities Exchange Act must be brought in federal court while all other claims may be brought in federal or state court. Proceedings in federal court may be more expensive than in state court due to more comprehensive rules on how discovery and motion and trial practice are handled. This provision may have a dampening effect on claims brought under these securities laws or limit the ability of the investor to bring a claim in the jurisdiction it deems more favorable. This provision is likely enforceable as requirements regarding bringing securities claims have been met, but it may have the overall effect of discouraging litigation due to the circumstances described herein.

-21-

We do not currently intend to pay dividends on our common shares in the foreseeable future, and consequently, your ability to achieve a return on your investment will depend on appreciation in the price of our common shares.

We have never declared or paid cash dividends on our common shares and do not anticipate paying any cash dividends to holders of our common shares in the foreseeable future. Consequently, investors must rely on sales of their common shares after price appreciation, which may never occur, as the only way to realize any future gains on their investments. There is no guarantee that our common shares will appreciate in value or even maintain the price at which our shareholders have purchased their shares.

USE OF PROCEEDS

We are not selling any shares of our common stock in this offering and we will not receive any of the proceeds from the sale of shares of our common stock by the selling stockholders. The selling stockholders will receive all of the proceeds from any sales of the shares of our common stock offered hereby. However, we will incur expenses in connection with the registration of the shares of our common stock offered hereby.

MARKET FOR OUR COMMON STOCK AND RELATED STOCKHOLDER MATTERS

Market information

Our common stock is currently quoted on Nasdaq Capital Market under the symbol “AGRI”, and warrants under the symbol “AGRIW”. Trading in our common stock has historically lacked consistent volume, and the market price has been volatile.

On March 29, 2023, the closing price for our common stock as reported on the Nasdaq Capital Market was \$0.63 per share.

Securities outstanding and holders of record

On March 29, 2023, there were approximately 6,332 shareholders of record for our common stock and AGRI shares of our common stock issued and outstanding.

Dividend Policy

We have never paid any cash dividends on our common shares. However, we have paid common share dividends on our preferred stock. Our preferred stock was retired and there were no preferred shares outstanding after the IPO. We anticipate that we will retain funds and future earnings to support operations and to finance the growth and development of our business. Therefore, we do not expect to pay cash dividends on our common shares in the foreseeable future following this offering. Any future determination to pay cash dividends on our common shares will be at the discretion of our Board of Directors and will depend on our financial condition, results of operations, capital requirements and other factors that our Board of Directors deems relevant. In addition, the terms of any future debt or credit financings may preclude us from paying dividends.

Information respecting equity compensation plans

The Company adopted a stock option plan originally on December 12, 2018 (the “Option Plan”), as amended, under which the compensation committee of the Board (the “Compensation Committee”) may from time to time in its discretion, recommend changes to the Option Plan to grant to directors, officers, employees and consultants of the Company non-transferable options to purchase common shares (“Options”). The Board of Directors review recommendations and approve changes. As of the date of this filing, the Company has 1,382,629 Options outstanding. The Option Plan was approved by the shareholders of the Company on June 10, 2019.

The following table provides information with respect to options outstanding under our Plan as at December 31, 2022:

Plan category	Number of securities to be issued upon exercise of outstanding options	Weighted-average exercise price of outstanding options	Number of securities remaining available for future issuance
Equity compensation plans approved by security holders	1,382,629	\$ 3.30	431,986
Equity compensation plans not approved by security holders	-	-	-
Total	1,382,629	\$ 3.30	431,986

* un(Think) Food Company Canada Ltd. changed its name from Daybreak AG Systems Ltd. during the year ended December 31, 2022.

Summary Three Year History

From the date of Incorporation (December 22, 2017) to the date of this filing, the Company has largely been engaged in completion of its initial corporate organization, assembling its management team, completing the design and engineering of its IP and filing the appropriate intellectual property protection and taking the initial steps to implement its business plan through the commencement of initial operations in California. Significant milestones during this period are as follows:

- The Company has substantially finalized the final design and engineering drawings for the FORCEGH+™.
- On November 30, 2021, the Company signed an offtake agreement with Humboldt Bliss, Ltd., a Barbadian limited company (“Humboldt”). Under the terms of the contract, AgriFORCE™ is responsible for constructing its proprietary facility and providing the full Standard Operating Procedures (“SOP”)s of the FORCEGH+™ and Humboldt is responsible for securing the project’s land as well as operating the facility. David Welch, a director of the Company, owns a controlling interest in Humboldt and is a related party. Mr. Welch recused himself from the final deliberation and approval of the agreement by the board.
- On February 18, 2022, the Company signed a license agreement with Radical Clean Solutions Ltd (“Radical”), a New York corporation that has developed a patent pending product line consisting of smart hydroxyl generation systems to eliminate 99.99+% of all pathogens, virus, mold, volatile organic compounds and allergy triggers, to commercialize the proprietary hydroxyl generating devices within the controlled environment agriculture (“CEA”) and food manufacturing industries. The license grants the rights to AgriFORCE™ in perpetuity as well as joint patent ownership rights for application in CEA. The Company has been working on commercializing these devices for food manufacturing plants, greenhouses, vertical growing facilities, as well as food, storage, and produce transportation. This is with a goal to drive food security, improve product freshness, and lengthen shelf-life.
- On May 18, 2022, the Company completed the acquisition of the food processing intellectual property of Manna Nutritional Group (Manna).

-23-

Debt Financing

On March 24, 2021, the Company entered into a securities purchase agreement with certain accredited investors for the purchase of \$750,000 in principal amount (\$600,000 subscription amount) of senior secured debentures originally due June 24, 2021 (the “Bridge Loan”). On June 24, 2021, the due date was extended to July 12, 2021. The imputed interest rate is encompassed within the original issue discount of the debentures and no additional cash interest was due. The debentures were issued pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended, to certain purchasers who are accredited investors within the meaning of Rule 501 under the Securities Act of 1933, as amended. Each debenture holder will receive a warrant to purchase shares of common stock in an amount equal to 50% of the principal amount divided by 80% of the initial public offering price of the Company’s common stock. The warrants are exercisable at 80% of the initial public offering price. Transaction costs of \$69,000 have been recorded in connection with the Bridge Loan. The Bridge Loan was fully repaid on July 13, 2021.

On June 30, 2022, the Company entered into security purchase agreements with certain accredited investors (the “Convertible Debt Investors”) for the purchase of \$14,025,000 in convertible debentures (the “Debentures”) due December 31, 2024. The interest rates on the Debentures are 5% for the first 12 months, 6% for the subsequent 12 months, and 8% per annum thereafter. Principal repayments will be made in 25 equal monthly installments and began on September 1, 2022. The Debenture may be extended by six months at the election of the Company by paying a sum equal to six months interest on the principal amount outstanding at the end of the 18th month, at the rate of 8% per annum. The Debentures are convertible into common shares at \$2.22 per share. The Convertible Debt Investors have the right to purchase additional tranches of \$5,000,000 each, up to a total additional principal amount of \$33,000,000. In addition, the Convertible Debt Investors received 4,106,418 warrants at a strike price of \$2.442, which expire on December 31, 2025 (the “Debenture Warrants”). The Debenture Warrants and Debentures each have down round provisions whereby the conversion and strike prices will be adjusted downward if the Company issues equity instruments at lower prices. On January 17, 2023, the Convertible Debt Investors purchased an additional tranche of \$5,076,923. The convertible debt and warrants were issued with an exercise price of \$1.24. The issuance of the additional tranche triggered the down round provision, adjusting the exercise prices of the Debentures and the Debenture Warrants to \$1.24.

Intellectual Property

The Company’s intellectual property rights are important to its business. In accordance with industry practice, the Company protects its proprietary products, technology and its competitive advantage through a combination of contractual provisions and trade secret, copyright and trademark laws in Canada, the United States and in other jurisdictions in which it conducts its business. The Company also has confidentiality agreements, assignment agreements and license agreements with employees and third parties, which limit access to and use of its intellectual property.

Operations

The Company primary operating activities are in California, USA and Saskatoon, Canada. The Company's head office is located in Vancouver, Canada.

Description of Property

The Company currently leases office space at 2233 Colombia Street, Suite 300, Vancouver, B.C., V5Y 0M6 as its principal office. The Company believes the office is in good condition and satisfy its current operational requirements.

Litigation

We are subject to the legal proceeding and claims described in detail in "Note 17. Commitments and Contingencies" to the audited financial statements included in this Annual Report on Form 10-K. Although the results of litigation and claims cannot be predicted with certainty, as of the date of this Annual Report on Form 10-K, we do not believe the outcome of such legal proceeding and claims, if determined adversely to us, would be reasonably expected to have a material adverse effect on our business. Regardless of the outcome, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources and other factors.

* Ingo Mueller was appointed as Chairman of the Board effective September 24, 2021.

Directors serve until the next annual meeting and until their successors are elected and qualified. Officers are appointed to serve for one year until the meeting of the Board of Directors following the annual meeting of shareholders and until their successors have been elected and qualified.

Ingo Wilhelm Mueller – Chairman, Director and Chief Executive Officer

Mr. Mueller has been involved in the finance and advisory business for the past 25 years having been involved in the financing of companies and projects. Mr. Mueller is the founder and currently the CEO of the Company since inception and has been responsible for the development of the Company's intellectual property, business model and financing. He is full time with the Company. He is also currently the CEO of St. George Capital Corp. (since 1998), doing business as Capital Fusion Group, a private financial advisory firm. Mr. Mueller was Chairman and CEO of International Coal Company Ltd. from 2008-2010 before it was sold to London Mining plc, after which Mr. Mueller was named Chairman and CEO of London Mining Colombia Ltd. (2010 to 2012). Mr. Mueller was also the CEO and Chairman of WIGU City Edutainment Centers Plc (2014 to 2017). Mr. Mueller has a Bachelor Commerce (major in Finance and minor in Urban Land Economics) from the University of British Columbia. The Board has determined that Mr. Mueller is suited to serve on the Board due to his long standing involvement in the financial community. Mr. Mueller was appointed as the Chairman of the Board effective September 24, 2021.

-27-

David Welch, Director, Nominating and Governance Committee

Mr. Welch is a founding partner at ENSO LAW, LLP, based in Los Angeles. He has a broad base of experience in representing US, Canadian and Mexican corporate clients in the areas of litigation, intellectual property and government regulatory advisement and defense. Mr. Welch has represented recognizable businesses in the agriculture and food services space in Federal Court, California state courts and before the USPTO. Mr. Welch has also argued before the California Supreme Court and the US 9th Circuit Court of Appeals on constitutional issues related to preemption and the application of US law to various companies. Mr. Welch obtained his Juris Doctorate degree from Loyola Law School with an emphasis in international trade and has received various accolades for his work in intellectual property and regulatory law, including Top 40 under 40 by the Daily Journal; National Law Journal Intellectual Property Trail Blazer, and Super Lawyers from 2013 until 2023. In his business ventures, Mr. Welch is a registered aquaculturist and farmer focusing on sustainable and regenerative agricultural practices. He is suited to serve as a director due to his long standing experience in international intellectual property and business.

William John Meekison, Director, Audit Committee, Compensation Committee

Mr. Meekison is a career Chief Financial Officer and former investment banker. He has spent the last fifteen years serving in a variety of executive management and CFO roles with both private and public companies, currently as the CFO and Director of Exro Technologies Inc. (since October 2017), a technology company that creates energy management system, and CFO and CFO of ArcWest Exploration Inc. (since December 2010), a mining exploration company in British Columbia. He is currently on the board of Telo Genomics Corp. (since July 2018) and Adven Inc. (since April 2021). Prior to his position at Exro Technologies Inc. and other CFO roles, Mr. Meekison spent fifteen years in corporate finance with a focus on raising equity capital for North American technology companies, including nine years at Haywood Securities Inc. Mr. Meekison received his Bachelor of Arts from the University of British Columbia and is a Chartered Professional Accountant, Professional Logistician and Certified Investment Manager. He is suited to serve as a director due to his long time experience as a CFO.

Richard Levychin, Director, Audit Committee Chair, Nominating and Governance Committee, Compensation Committee

Richard Levychin, CPA, CGMA, is a Partner in Galleros Robinson's Commercial Audit and Assurance practice where he focuses on both privately and publicly held companies. Prior to taking this position in October 2018, Richard was the managing partner of KBL, LLP, a PCAOB certified independent registered accounting firm, since 1994. Mr. Levychin has over 25 years of accounting, auditing, business advisory services and tax experience working with both privately owned and public entities in various industries including media, entertainment, real estate, manufacturing, not-for-profit, technology, retail, technology, and professional services. His experience also includes expertise with SEC filings, initial public offerings, and compliance with regulatory bodies. As a business adviser, he advises companies, helping them to identify and define their business and financial objectives, and then provides them with the on-going personal attention necessary to help them achieve their established goals. Mr. Levychin is well suited to serve on our Board due to his decades of experience as the managing partner of a PCAOB certified independent registered accounting firm, which included decades of expertise with SEC filings and initial public offerings.

Amy Griffith, Director, Audit Committee, Compensation Committee Chair, Nominating and Governance Committee

Ms. Griffith currently serves as Group Director for the North America Operating unit of the Coca-Cola Company, in this capacity she oversees public affairs, government relations, sustainability and communications in Canada and the Northeastern United States. Previously, she served as Wells Fargo's State & Local Government Relations Senior Vice President. She was recruited to Wells Fargo's Government Relations and Public Policy team in 2019. In this role, Griffith led Wells Fargo's legislative and political agenda in her region and managed relationships with state and local policymakers and community stakeholders. From 2008-2019, Ms. Griffith led government relations for sixteen states in the Eastern United States for TIAA for over a decade. Prior to that, she worked in the aerospace, high tech, education, private and public sectors, and has managed multiple high-profile political campaigns at the local, state and national level. Griffith is active in her community and has co-chaired The Baldwin School Golf Outing to raise funds for girls' athletics programs. She is a graduate of Gwynedd-Mercy College and holds a Bachelor of Arts in History. Ms. Griffith is well qualified to serve as a director due to her significant experience in government relations, policy and politics as well as decades of experience working with companies in both the private and public sectors.

-28-

Richard Wong, Chief Financial Officer

Mr. Wong, who works full time for the Company, has over 25 years of experience in both start-up and public companies in the consumer goods, agricultural goods, manufacturing, and forest industries. Prior to joining the Company in 2018, he was a partner in First Choice Capital Advisors from 2008-2016 and a partner in Lighthouse Advisors Ltd. from 2016-2018. Mr. Wong has also served as the CFO of Emerald Harvest Co., Dan-D Foods, Ltd., and was the Director of Finance and CFO of SUGOI Performance Apparel and had served positions at Canfor, Canadian Pacific & other Fortune 1000 companies. Mr. Wong is a Chartered Professional Accountant, and a member since 1999. Mr. Wong has a Diploma in Technology and Financial Management from the British Columbia Institute of Technology.

Troy McClellan, President AgriFORCE™ Solutions

Mr. McClellan, who works full time for the Company, has focused on innovative design and construction technologies throughout his career. Most recently, he was V.P. of Design and Development at WIGU City from 2015-2018, at which time he joined the Company. Mr. McClellan was the VP Design and Development of MGM Macau. Previously, he was a Project Manager at Wynn Design & Development and a Design Manager at Universal Studios (Japan). Mr. McClellan is a registered professional architect and received his Master's Degree in Architecture from Montana State University.

Mauro Pennella, Chief Marketing Officer and President, AgriFORCE™ Brands

Mr. Pennella, who works full time for the Company, is a consumer products veteran with more than 30 years of experience in the consumer-packaged goods industry. From May 2018 until January 2021, he was Chief Growth & Sustainability Officer at McCain Foods, a Canadian multinational frozen food company. In that role, he was responsible for global marketing, sales, research and development (R&D) and sustainability. From October 2014 to April 2018, Mr. Pennella served as the President, International of Combe Incorporated, a personal care products company where he oversaw the international division, R&D and the internal advertising agency. He was also a member of the Executive Committee at Combe Incorporated, where he was responsible for the P&L - overseeing eight subsidiaries with more than 100 employees around the world. Prior to that, Mr. Pennella led the Retail and International businesses at Conagra's Lamb Weston division and developed his career at Diageo and Procter & Gamble. Mr. Pennella received a Master of Business from Audencia, a premier European business school, as well as an M.A.B.A. in Marketing and Finance from The Ohio State University Fisher College of Business.

Dr. Laila Benkrima, Chief Scientist

Dr. Benkrima, who consults part-time for the Company, holds a PhD from the University of Paris in horticulture with a specialization in tissue culture and the hybridization and selection of plant varieties. Her employment history includes Inflazyme Pharmaceuticals, the University of British Columbia, and Celex Laboratory.

Corporate Governance

The business and affairs of our Company are managed under the direction of the Board of Directors.

Term of Office

Directors serve until the next annual meeting and until their successors are elected and qualified. Officers are appointed to serve until the Company requires them to be replaced.

-29-

Director Independence

We use the definition of “independence” of The NASDAQ Stock Market to make this determination. We are not yet listed on NASDAQ, and although we use its definition of “independence,” its rules are inapplicable to us until such time as we become listed on NASDAQ. NASDAQ Listing Rule 5605(a)(2) provides that an “independent director” is a person other than an officer or employee of our Company or any other individual having a relationship which, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The NASDAQ rules provide that a director cannot be considered independent if:

- the director is, or at any time during the past three years was, an employee of our Company;
- the director or a family member of the director accepted any compensation from our Company in excess of \$120,000 during any period of 12 consecutive months within the three years preceding the independence determination (subject to certain exclusions, including, among other things, compensation for board or board committee service);
- a family member of the director is, or at any time during the past three years was, an executive officer of our Company;
- the director or a family member of the director is a partner in, controlling shareholder of, or an executive officer of an entity to which our Company made, or from which our Company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient’s consolidated gross revenue for that year or \$200,000, whichever is greater (subject to certain exclusions);
- the director or a family member of the director is employed as an executive officer of an entity where, at any time during the past three years, any of the executive officers of our Company served on the compensation committee of such other entity; or
- the director or a family member of the director is a current partner of our Company’s outside auditor, or at any time during the past three years was a partner or employee of our Company’s outside auditor, and who worked on our Company’s audit.

Under the following three NASDAQ director independence rules a director is not considered independent: (a) NASDAQ Rule 5605(a)(2)(A), a director is not considered to be independent if he or she also is an executive officer or employee of the corporation, (b) NASDAQ Rule 5605(a)(2)(B), a director is not considered independent if he or she accepted any compensation from our Company in excess of \$120,000 during any period of twelve consecutive months within the three years preceding the determination of independence, and (c) NASDAQ Rule 5605(a)(2)(D), a director is not considered to be independent if he or she is a partner in, or a controlling shareholder or an executive officer of, any organization to which our Company made, or from which our Company received, payments for property or services in the current or any of the past three fiscal years that exceed 5% of the recipient’s consolidated gross revenues for that year, or \$200,000. Under such definitions, we have four independent directors.

Family Relationships

There are no family relationships among any of the directors and executive officers.

Board Committees

Our Board has established the following three standing committees: audit committee; compensation committee; and nominating and governance committee, or nominating committee. Our board of directors has adopted written charters for each of these committees. Copies of the charters will be available on our website. Our board of directors may establish other committees as it deems necessary or appropriate from time to time.

-30-

Audit Committee

Our Audit Committee is comprised of at least three individuals, each of whom are independent director and at least one of whom will be an “audit committee financial expert,” as defined in Item 407(d)(5)(ii) of Regulation S-K. Our audit committee is currently comprised of Richard Levychin, John Meekison and Amy Griffith, who are independent, and Mr. Levychin is our financial expert.

Our Audit Committee will oversee our corporate accounting, financial reporting practices and the audits of financial statements. For this purpose, the Audit Committee will have a charter (which will be reviewed annually) and perform several functions. The Audit Committee will:

- evaluate the independence and performance of, and assess the qualifications of, our independent auditor and engage such independent auditor;
- approve the plan and fees for the annual audit, quarterly reviews, tax and other audit-related services and approve in advance any non-audit service to be provided by our independent auditor;
- monitor the independence of our independent auditor and the rotation of partners of the independent auditor on our engagement team as required by law;
- review the financial statements to be included in our future Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q and review with management and our independent auditor the results of the annual audit and reviews of our quarterly financial statements; and
- oversee all aspects our systems of internal accounting control and corporate governance functions on behalf of the Board of Directors.

Compensation Committee

Our Compensation Committee comprises of at least three individuals, each of whom will be an independent director, Our Compensation committee is currently comprised of Amy Griffith (Chair), Richard Levychin and John Meekison and who are independent.

The Compensation Committee will review or recommend the compensation arrangements for our management and employees and also assist our Board of Directors in reviewing and approving matters such as company benefit and insurance plans, including monitoring the performance thereof. The Compensation Committee will have a charter (which will be reviewed annually) and perform several functions.

The Compensation Committee will have the authority to directly engage, at our expense, any compensation consultants or other advisers as it deems necessary to carry out its responsibilities in determining the amount and form of employee, executive and director compensation.

Our Nominating and Corporate Governance Committee is comprised of at least three individuals, each of whom will be an independent director. Currently Amy Griffith, Richard Levychin and David Welch are members of the committee.

The NC&G Committee is charged with the responsibility of reviewing our corporate governance policies and with proposing potential director nominees to the Board of Directors for consideration. This committee also has the authority to oversee the hiring of potential executive positions in our Company. The NC&G Committee also has a charter, which is to be reviewed annually.

Executive Compensation

Name & Principal Position	Year	Salary	Bonus	Share-Based Awards	Option-Based Awards	All Other Compensation	Total Compensation
Ingo W. Mueller,	2022	392,464	375,718	359,881	6,866	1,741	1,136,670

Item 13. Certain Relationships and Related Transactions, and Director Independence

We have adopted a written related-person transactions policy that sets forth our policies and procedures regarding the identification, review, consideration and oversight of “related-party transactions.” For purposes of our policy only, and not for purposes of required disclosure, which will be all related party transactions, even if less than \$120,000, a “related-party transaction” is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we and any “related party” are participants involving an amount that exceeds \$120,000.

Transactions involving compensation for services provided to us as an employee, consultant or director are not considered related-person transactions under this policy. A related party is any executive officer, director or a holder of more than five percent of our common shares, including any of their immediate family members and any entity owned or controlled by such persons.

At present, we have appointed three independent directors to the Nominating and Corporate Governance Committee. As a result, our Chief Financial Officer, Richard Wong, must present information regarding a proposed related-party transaction to the Nominating and Corporate Governance Committee. Under the policy, where a transaction has been identified as a related-party transaction, Mr. Wong must present information regarding the proposed related-party transaction to our Nominating and Corporate Governance Committee, once the same is established, for review. The presentation must include a description of, among other things, the material facts, the direct and indirect interests of the related parties, the benefits of the transaction to us and whether any alternative transactions are available. To identify related-party transactions in advance, we

rely on information supplied by our executive officers, directors and certain significant shareholders. In considering related-party transactions, our Nominating and Corporate Governance Committee takes into account the relevant available facts and circumstances including, but not limited to:

- whether the transaction was undertaken in the ordinary course of our business;
- whether the related party transaction was initiated by us or the related party;
- whether the transaction with the related party is proposed to be, or was, entered into on terms no less favorable to us than terms that could have been reached with an unrelated third party;
- the purpose of, and the potential benefits to us from the related party transaction;
- the approximate dollar value of the amount involved in the related party transaction, particularly as it relates to the related party;
- the related party's interest in the related party transaction, and
- any other information regarding the related party transaction or the related party that would be material to investors in light of the circumstances of the particular transaction.

The Nominating and Corporate Governance Committee shall then make a recommendation to the Board, which will determine whether or not to approve of the related party transaction, and if so, upon what terms and conditions. In the event a director has an interest in the proposed transaction, the director must recuse himself or herself from the deliberations and approval.

Except as set forth below, we have not had any related party transactions, regardless of dollar amount:

As of December 31, 2022, \$32,500 (December 31, 2021, \$47,461) in total was owing to officers and directors or to companies owned by officers and directors of the Company for services and expenses. These amounts owing have been included in accounts payable and accrued liabilities.

During the year ended December 31, 2022 and 2021, the Company incurred \$79,457 and \$66,246, respectively, to our U.S. general counsel firm, D R Welch against legal services, a corporation controlled by a director of the Company. No shares were issued in the year ended December 31, 2022 (an aggregate of 13,158 shares were issued – December 31, 2021) to David Welch as part of the payment.

DESCRIPTION OF OUR SECURITIES

General

We have authorized unlimited common shares and preferred shares.

Common Shares

As of March 29, 2023, we had 18,156,154 common shares issued and outstanding.

Voting

The holders of the common shares are entitled to one vote for each share held at all meetings of shareholders (and written actions in lieu of meeting). There is no cumulative voting. The holders of common shares are entitled to dividends when and as declared by the Board of Directors from funds legally available therefor, and upon liquidation are entitled to share pro rata in any distribution to holders of common shares. There are no preemptive, conversion or redemption privileges, nor sinking fund provisions with respect to the common shares.

Warrants

As of the date of this prospectus, the Company has issued and outstanding warrants to purchase 19,427,021 shares of the Company's common stock on the terms set forth below.

<u>Securities Class</u>	<u>Number</u>	<u>Expiry</u>	<u>Conversion feature</u>
\$7.50 Common Share Warrants Tranche 1	1,563,806	May 2, 2025	Each warrant entitles holder to purchase One common share within 5 years, and is accelerated to 30 days expiry when stock trades for a minimum of \$11.40 for 10 consecutive days
\$7.50 Common Share Warrants Tranche 2	982,259	May 10, 2025	Each warrant entitles holder to purchase One common share within 5 years, and is accelerated to 30 days expiry when stock trades for a minimum of \$11.40 for 10 consecutive days
\$6.00 Common Share Warrants from IPO	3,224,197	July 12, 2024	Each warrant entitles holder to purchase One common share within 5 years, and is accelerated to 30 days expiry when stock trades for a minimum of \$11.40 for 10 consecutive days
Prefunded warrants	5,742,920	No expiry date	Each warrant entitles holder to convert one warrant into common share upon a Patent being issued and transferred to the Company. The warrants will vest in four equal amounts commencing on the date of issuance of the Patent.
Prefunded warrants	1,146,132	No expiry date	Each warrant entitles holder to convert one warrant into common share upon the closing of the Stronghold Power Systems Inc. land purchase
\$1.24 Common Share Warrants from convertible debentures	4,106,418	December 31, 2025	Each warrant entitles holder to purchase One common share within 42 months of the issuance date of the warrant (June 30, 2022). There is a down round provision that adjusts the strike price based on certain future events.
\$1.24 Common Share Warrants from convertible debentures	2,661,289	July 17, 2026	Each warrant entitles holder to purchase One common share within 42 months of the issuance date of the warrant (January 17, 2023). There is a down round provision that adjusts the strike price based on certain future events.
TOTAL	19,427,021		

JULY 2022 DEBENTURES AND SELLING STOCK HOLDERS TABLE

On June 30, 2022, AgriFORCE™ Growing Systems, Ltd. (the “Company”) entered into a Securities Purchase Agreement (“SPA”) with two institutional investors (“Investors”) with an initial purchase of \$14.025 million principal amount of debentures (“Debentures”) and accompanying warrants (“Warrants”) and up to an additional \$33 million principal amount of Debentures and accompanying Warrants. Under the SPA, the Company expects to receive an initial amount of \$12.75 million (gross of fees which will be deducted from that amount) on July 6, 2022 and has the right to receive up to an additional aggregate of \$33.0 million at the discretion of each of the purchasers hereunder (the “Investors”), in one or multiple tranches, subject to certain conditions, at then-current market prices in minimum tranches of \$5 million each. The SPA contains industry standard representations and warranties and negative covenants, including, but not limited to, limitations upon the amounts of indebtedness and other securities which may be incurred and issued by the Company under certain circumstances as set forth in the SPA.

The initial conversion price of the Debentures is \$2.22 per share. The Debentures are due in 2.5 years from June 30, 2022, which may be extended for an additional six month period by the Company by paying, at the end of the 18th month of the term of the Debentures, six months of interest at the rate of 8% per annum. The Debentures are subject to a 10% original issue discount and bear interest at 5% for the first 12 months, 6% for the next 12 months and 8% until maturity. The Debentures amortize over a 25 month period commencing on September 1, 2022, and the monthly amortization of the Debentures are payable in cash only for the first 12 months of amortizations and in cash or stock thereafter at the option of the Company. Once the monthly amortizations are payable in cash or stock, the Company can only elect to pay the monthly amortization in stock if certain equity conditions, as set forth in the Debentures, are met, which include, but are not limited to, for each Trading Day in a period of 20 consecutive Trading Days prior to the applicable date in question, the daily trading volume for the Common Stock on the principal Trading Market exceeds \$1,000,000 per Trading Day, the Company is not in default of any of its obligations under the Debentures, there is an effective registration statement for the resale of shares issuable under the Debentures, and the Company is in compliance with all Nasdaq listing requirements. The Debentures contain commercially standard events of default and covenants and the like.

In addition, the Investors have received 3.5-year Warrants with 65% warrant coverage at an initial exercise price of \$2.442 per share, subject to customary adjustments, including a price ratchet (to the price of the new issuance) if it issues its common shares at a price less than the then in effect exercise price and are subject to standard pro rata dilution for reverse stock splits and the like. The Debentures have the same dilution protection as the Warrants.

Both the Debentures and Warrants contain exercise limitations upon an Investor beneficially owning more than either 4.99% or 9.99% of the Company’s common shares and also contain caps upon the total amount of common shares issuable upon conversion of the Debentures and exercise of the Warrants of 19.9% of the issued and outstanding shares of the Company at the time of the closing of the transactions, until shareholder approval of both the financing transaction, including all subsequent tranches of the financing, and the Delphy acquisition are received, consistent with Nasdaq rules.

The Company has entered into a Registration Rights Agreement with the Investors to register the shares issuable upon conversion of the Debentures and exercise of the Warrants with a registration statement to be filed on Form S-1 no later than 30 days from June 30, 2022 (or any subsequent closing) and effective no later than 60 days from June 30, 2022 (or the date of any subsequent closing; or 90 days, if there is full SEC review). Penalties for missing those deadlines are equal to 2% of the subscription amount per month up to 10% of the subscription amount.

The Company’s subsidiaries have also entered into subsidiary guarantees pursuant to which each guarantees the performance of the Company of its obligations under the SPA and related instruments. Each of the officers and directors has also entered into a lockup agreement to not sell any common shares of the Company owned by each such person for one year from June 30, 2022 (subject to the ability to sell shares received by each as the result of an employment agreement at any time, which ability to sell shares commences on January 1, 2023).

All of the Debentures and Warrants sold under the SPA are sold in private placement transactions exempt from registration under Section 4(a)(2) of the Securities Act of 1933, as amended.

On January 17, 2023, the two investors in the initial transaction purchased an additional \$5,076,923.08 principal amount of Notes and 2,661,289 Warrants. At the same time the initial conversion price of the Notes and exercise price of the Warrants was reduced to \$1.24.

SELLING STOCKHOLDERS

The shares of common stock being offered by the selling stockholders are those issuable upon conversion of the Debentures and exercise of the Warrant, see above. We are registering the shares of common stock in order to permit the selling stockholders to offer the shares for resale from time to time. Except for the ownership of the common stock, Debentures and Warrants issued pursuant to the Securities Purchase Agreement, the selling stockholders have not had any material relationship with us within the past three years.

The table below lists the selling stockholders and other information regarding the beneficial ownership (as determined under Section 13(d) of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder) of the shares of common stock held by each of the selling stockholders. The second column lists the number of shares of common stock beneficially owned by the selling stockholders, based on their respective ownership of shares of Debentures and Warrants, as of July 27, 2022, assuming exercise of the warrants held by each such selling stockholder on that date but taking account of any limitations on exercise set forth therein.

The third column lists the shares of common stock being offered by this prospectus by the selling stockholders and does not take in account any limitations on exercise of the Debentures and Warrants set forth therein.

In accordance with the terms of a registration rights agreement with the holders of the Debentures and Warrants, this prospectus generally covers the resale of the sum of (i) the number of shares of common stock into which the Debentures are convertible, and (ii) the maximum number of shares of common stock issuable pursuant to the Warrants, in each case, determined as if the outstanding Debentures and Warrants were converted/exercised in full (without regard to any limitations on exercise contained therein) (collectively, the “Registrable Securities”) as of the trading day immediately preceding the date this registration statement was initially filed with the SEC. Because the conversion price of the Debentures and exercise price of the Warrants may be adjusted, the number of shares that will actually be issued may be more or less than the number of shares being offered by this prospectus. The fourth column assumes the sale of all of the shares offered by the selling stockholders pursuant to this prospectus.

-34-

Under the terms of the Debentures and Warrants, as applicable, a selling stockholder may not convert the Debentures and/or exercise the Warrants to the extent (but only to the extent) such selling stockholder or any of its affiliates would beneficially own a number of shares of our common stock which would exceed the applicable ownership percentage limitation (either 4.99% or 9.99%, which we refer to herein as the “blocker”) of the outstanding shares of the Company. The number of shares in the second column reflects these limitations. The selling stockholders may sell all, some or none of their shares in this offering. See “Plan of Distribution.”

Name of Selling Stockholder	Number of Shares of Common Stock Owned Prior to Offering	Maximum Number of Shares of Common Stock to be Sold Pursuant to this Prospectus(3)	Number of Shares of Common Stock of Owned After Offering
Pioneer Capital Anstalt(1)	-	4,391,128	-
Alto Opportunity Master Fund, SPC – Segregated Master Portfolio B (2)	-	2,364,453	-

- (1). Consists of 2,661,290 shares issuable upon conversion of the Debentures and 931,451 shares issuable upon exercise of the Warrants. Each of the Debentures and Warrants has a beneficial ownership blocker that precludes Pioneer from converting or exercising such instrument if such conversion or exercise would cause Pioneer's beneficial ownership of the Company's common stock to exceed 9.99%. Pioneer Capital Anstalt has an address at Drescheweg 2, 9490 Vaduz, Liechtenstein. Voting and dispositive control of securities owned by Pioneer is shared by its two directors, Nicola Feuerstein and Lucas Mair.
- (2). Ayrton Capital LLC, the investment manager to Alto Opportunity Master Fund, SPC - Segregated Master Portfolio B, has discretionary authority to vote and dispose of the shares held by Alto Opportunity Master Fund, SPC - Segregated Master Portfolio B and may be deemed to be the beneficial owner of these shares. Waqas Khatri, in his capacity as Managing Member of Ayrton Capital LLC, may also be deemed to have investment discretion and voting power over the shares held by Alto Opportunity Master Fund, SPC - Segregated Master Portfolio B. Ayrton Capital LLC and Mr. Khatri each disclaim any beneficial ownership of these shares. The address of Ayrton Capital LLC is 55 Post Rd West, 2nd Floor, Westport, CT 06880.
- (3) Pursuant to the terms of the registration rights agreement, we have agreed to register the sale of up to 6,775,581 shares of our common stock.

PLAN OF DISTRIBUTION

We are registering the shares of common stock previously issued and the shares of common stock issuable upon conversion of the Debentures and exercise of the warrants to permit the resale of these shares of common stock by the holders of the common stock, Debentures, and warrants from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling stockholders of the shares of common stock, although we will receive the exercise price of any Warrants not exercised by the selling stockholders on a cashless exercise basis. We will bear all fees and expenses incident to our obligation to register the shares of common stock.

The selling stockholders may sell all or a portion of the shares of common stock held by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the shares of common stock are sold through underwriters or broker-dealers, the selling stockholders will be responsible for underwriting discounts or commissions or agent's commissions. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions, pursuant to one or more of the following methods:

- on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- in the over-the-counter market;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- through the writing or settlement of options, whether such options are listed on an options exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales made after the date the Registration Statement is declared effective by the SEC;
- broker-dealers may agree with a selling security holder to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares of common stock under Rule 144 promulgated under the Securities Act of 1933, as amended, if available, rather than under this prospectus. In addition, the selling stockholders may transfer the shares of common stock by other means not described in this prospectus. If the selling stockholders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the shares of common stock or otherwise, the selling stockholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of common stock in the course of hedging in positions they assume. The selling stockholders may also sell shares of common stock short and deliver shares of common stock covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling stockholders may also loan or pledge shares of common stock to broker-dealers that in turn may sell such shares.

-35-

The selling stockholders may pledge or grant a security interest in some or all of the warrants or shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending, if necessary, the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

To the extent required by the Securities Act and the rules and regulations thereunder, the selling stockholders and any broker-dealer participating in the distribution of the shares of common stock may be deemed to be "underwriters" within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed, which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholders and any discounts, commissions or concessions allowed or re-allowed or paid to broker-dealers.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling stockholder will sell any or all of the shares of common stock registered pursuant to the registration statement, of which this prospectus forms a part.

The selling stockholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the selling stockholders and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We will pay all expenses of the registration of the shares of common stock pursuant to the registration rights agreement, including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state securities or “blue sky” laws; provided, however, a selling stockholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling stockholders against liabilities, including some liabilities under the Securities Act in accordance with the registration rights agreements or the selling stockholders will be entitled to contribution. We may be indemnified by the selling stockholders against civil liabilities, including liabilities under the Securities Act that may arise from any written information furnished to us by the selling stockholder specifically for use in this prospectus, in accordance with the related registration rights agreements or we may be entitled to contribution.

Once sold under the registration statement, of which this prospectus forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

Such consolidated financial statements are incorporated herein by reference in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and special reports, along with other information with the SEC. Our SEC filings are available to the public over the Internet at the SEC’s website at <http://www.sec.gov>. Our SEC filings are also available on our website, <https://www.agriforcegs.com> under the heading “Investors.” The information on this website is expressly not incorporated by reference into, and does not constitute a part of, this prospectus.

This prospectus is part of a registration statement on Form S-1 that we filed with the SEC to register the securities offered hereby under the Securities Act of 1933, as amended. This prospectus does not contain all of the information included in the registration statement, including certain exhibits and schedules. You may obtain the registration statement and exhibits to the registration statement from the SEC at the address listed above or from the SEC’s internet site.

INCORPORATION BY REFERENCE

This prospectus is part of a registration statement filed with the SEC. The SEC allows us to “incorporate by reference” into this prospectus the information that we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this prospectus, and information that we file later with the SEC will automatically update and supersede this information. The following documents are incorporated by reference and made a part of this prospectus:

- Annual Report on [Form 10-K](#) for the year ended December 31, 2022 filed on March 14, 2023;
- Our Definitive Proxy Statements on Schedule 14A and accompanying additional proxy materials filed with the SEC on [October 7, 2022](#) and [November 7, 2022](#);
- Our registration statement on Form 8-A filed on [July 2, 2021](#).

We also incorporate by reference all additional documents that we file with the Securities and Exchange Commission under the terms of Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act that are made after the date of the initial registration statement but prior to effectiveness of the registration statement and after the date of this prospectus but prior to the termination of the offering of the securities covered by this prospectus. We are not, however, incorporating, in each case, any documents or information that we are deemed to furnish and not file in accordance with Securities and Exchange Commission rules.

You may request, and we will provide you with, a copy of these filings, at no cost, by calling us at (604) 757-0952 or by writing to us at the following address:

300 – 2233 Columbia Street
Vancouver, BC, Canada
(Address of principal executive offices)

PROSPECTUS

_____, 2023

DEALER PROSPECTUS DELIVERY OBLIGATION

Until (insert date), all dealers that effect transactions in these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.
